**BEST AVAILABLE COPY**

Dear Mr. Glisson:

Subject: Amendment - Deletion of Lethane 384, Updated Label and Change  
of Product Name  
~~1-27-87~~ ~~concentrate~~ Hill # 1271 Mayton Insecticide (Concentrate)  
EPA Registration No. 402-117  
Your Application Dated March 14, 1986

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable provided that you make the labeling changes listed below before you release the product for shipment bearing the amended labeling:

1. Change INSERT to INERT in the Ingredient Statement.
2. ~~\_\_\_\_\_~~  
~~\_\_\_\_\_~~  
~~\_\_\_\_\_~~
3. Add an asterisk to INERT INGREDIENTS\* and a footnote "\*Contains Petroleum Distillate."

We have no objection to the removal of Lethane 384 from this product. The ~~change in product name~~ *has been noted.*  
Consideration of a product name change will be made after receipt of the information requested below.

Provide the following product chemistry information:

1. Provide the upper and lower certified limits based on the pure active ingredients rather than the technical or concentrate. Note that the lower limit of the active, including any solvent declared as active, must not fall below the label claim.
2. Provide upper and lower certified limits of the individually added inerts.

4. Please confirm that the flashpoint is 80 °C, not 80 °F. See the enclosed section of the regulations regarding physical or chemical statement.

Submit five (5) copies of your final printed labeling before you release the product for shipment.

A stamped copy of the labeling is enclosed for your records.

Sincerely yours,

George T. LaRocca  
Product Manager (15)  
Insecticide-Rodenticide Branch  
Registration Division (TS-767C)

**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION**

May be harmful if swallowed, inhaled, or absorbed through the skin. Do not get in eyes, or skin, or on clothing. Wear natural rubber gloves, protective clothing and goggles when handling the concentrate to prepare dilution. Keep all unprotected persons out of operational area. During commercial or prolonged exposure wear a respirator jointly approved by the Mine Safety and Health Administration and by the National Institute for Occupational Safety and Health under the provisions of 30 CFR Part 11. In case of contact, wash immediately with soap and warm water. Wash hands, arms and face thoroughly with soap and water before eating or smoking. Should poisoning occur, get prompt medical aid.

Do not apply or allow to drift to areas occupied by humans or beneficial animals. Do not use on area where food or feed crops are growing. For best results use this product when there is little or no breeze.

**STATEMENT OF PRACTICAL TREATMENT**

**IF SWALLOWED:** Call a physician or Poison Control Center immediately. DO NOT INDUCE VOMITING. Vomiting may cause aspiration pneumonia.

**IF INHALED:** Remove victim to fresh air. Apply artificial respiration if indicated.

**IF ON SKIN:** Remove contaminated clothing and wash affected areas with soap and water.

**IF IN EYES:** Flush eyes with plenty of water. Call a physician immediately.

**NOTE TO PHYSICIAN:** Solvent presents aspiration hazard. Gastric lavage is indicated if material was taken internally. If symptoms of cholinesterase inhibition are present, atropine sulfate is antidotal. 2-PAM is also antidotal and may be administered in conjunction with atropine.

HILL #1271

# mayto

## INSECTICIDE CONCENTRATE

A residual insecticide for use in Hill's Dyna-Fog Generators or any other thermal generators as well as the ULV type mist sprayer, as an aid in the control of flies, mosquitoes and gnats around drive-in theatres, mobile home parks, motels, municipalities, recreation areas, country clubs, resort hotels, camps, sanitary control districts, city dumps, garbage heaps and around sewage disposal plants.
