

DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

Uniformly spray one gallon of Scorch mixed in ten gallons of diesel fuel over 1,000 sq. ft. of soil surface. Thoroughly wet all foliage to insure contact action. Best results are obtained when applications are made during or soon after weed emergence while growth is succulent. Where vegetation is tall and dense, use 1 1/2 gallons of Scorch in ten gallons of water per 1,00 sq ft. For control of hard-to-kill perennial weeds and grasses such as Johnson grass, Birdweed and Wild Carrot, use 3-4 1/2 gallons per 1,00 sq. ft. Although Scorch has considerable activity through foliar contact, much of its activity is through the roots and therefore, adequate rainfall to move the chemical into the root zone is necessary.

Under conditions where rainfall is high and the growing season long, a second application may be necessary to maintain a weed-free soil surface.

For faster top-kill of existing vegetation, apply Scorch at the above dilution rates in diesel oil, fuel oil or weed oil. Care must be taken to keep this herbicide away from desirable flower beds, lawns and shrubs. Do not apply over roots of valuable trees, or woody ornamental plants. Only apply herbicide outside of the drip line of trees. Avoid spray drift to desirable plants.

IMPORTANT

Read the entire directions for use and the condition of sale and warranty before using this product. Since weather and other conditions under which this product may be used will vary, the seller makes no warranty of any kind, express or implied, concerning the use of this product. The user assumes all risks of use or handling not in accordance with directions or suggestions.

Hill # 1516

SCORCH

NON-SELECTIVE HERBICIDE

Double action, works through foliage contact and root absorption. Water emulsifiable

ACTIVE INGREDIENTS:

2,4 bis (isopropylamino)	
6-methoxy-s-triazine*	3.12%
Xylene	83.90%
INERT INGREDIENTS	12.06%
TOTAL	100.00%

*Pramitol™ is a registered trademark of CIBA Geigy Corporation.

It is recommended that Scorch be used in the areas such as industrial sites, around buildings, roadways, right-of-ways, lumber yards, tank farms, cemeteries, driveways, parking lots, fence areas, recreational areas and airports. Scorch is water emulsifiable and non-corrosive to equipment.

KEEP OUT OF REACH OF CHILDREN
WARNING

PRECAUTIONARY STATEMENTS

HAZARD TO HUMANS AND DOMESTIC ANIMALS

WARNING

Harmful if swallowed. If swallowed do not induce vomiting. Call a physician immediately. Avoid contact with eyes and skin. In case of skin contact, wash with soap and water. Avoid inhalation of spray mist. Avoid contamination of food and feed. Avoid spray drift to desirable plants. Do not contaminate water used for irrigation or domestic purposes. Keep out of lakes, streams, or ponds. Do not contaminate water by cleaning of equipment or disposal wastes. Apply this product only as specified on this label. Store at temperatures above 32° F. Do not reuse drum or cut open with torch.

PHYSICAL AND CHEMICAL HAZARDS - FLAMMABLE

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE— Do not use, pour, spill or store near heat or open flame.

PESTICIDE DISPOSAL— Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency or the Hazardous waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL— Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by local, State and Federal regulations.

Not Reviewed. Registrant claims to be in accordance with
Registration of Pesticide Products for Phase 2
