e (Sulfaquinoxaline) ..... 0.025%  
..... 99.950%

**OUT OF REACH OF CHILDREN  
FOR REQUIRED PRECAUTIONS**

EPA No. 404-118

## DIRECTIONS

**RATS:** Place generous amounts (minimum 4 ounces) of RAT-O-MICE in places where rats feed or frequent. Protect bait from children, dogs, cats, livestock and wildlife by means of a bait box, cage or suitable covering. (See Illustration.)

Watch bait stations closely and refill with RAT-O-MICE before bait is entirely consumed. **Baiting should be continued as long as evidence of feeding is observed. (at least 10 days).**

Where a continuous source of infestation is present from nearby dumps or fields, a supply of RAT-O-MICE should be maintained in permanent bait stations at all times.

**MICE:** Tablespoon amounts (1/4 to 1/2 ounce) of bait should be placed at 8 to 12 foot intervals. Bait should be placed in locations not accessible to children, pets, domestic animals and wildlife or in tamper-proof bait boxes. An uninterrupted supply of bait should be maintained (generally up to fifteen days).

**NOTE:** Bury or destroy rodents found on premises. Bait which has deteriorated due to becoming sour or moldy should be promptly replaced.

**ACCEPTED**  
**JUN 22 1972**  
UNDER THE FEDERAL INSECTICIDE  
FUNGICIDE AND RODENTICIDE ACT  
FOR ECONOMIC POISON REGISTERED  
ED UNDER NO. 404-118 SUBJECT  
TO ATTACHED COMMENTS.
