ACTIVE INGREDIENTS: 100%

0.500%	0,0-Dimethyl O-(2-isopropyl-6-methyl-4-pyrimidinyl) phosphorothioate.
0.052%	Pyrethrins.
0.261%	technical piperonyl butoxide (equivalent to 0.209% (butyl carbonyl) (6-propyl piperonyl) ether and 0.052% other related compound.
99.187%	petroleum distillate.

U. S. Patent No. 2,754,243

Directions For Use

Spray infested surfaces only until wet. Do not use in commercial food preparation areas or in edible products areas of food processing plants.

ROACHES, ANTS, WATERBUGS, SILVERFISH, SPIDERS, CRICKETS: Spray heavily into all cracks, around baseboards, and other places where these insects hide. Also spray until wet, surfaces behind and beneath cabinets, refrigerators, sinks, stoves. Spray other localized areas infested with these pests. Repeat treatment as required.

CARPET BEETLES: Make localized application to areas of the floor and baseboards. Spray directly into cracks and under carpets where insects may be found. Treat crevices, cracks or closets and infested areas of shelvings. Repeat as necessary.

BROWN DOG TICKS: Thoroughly spray infested areas around baseboards, window and door frames, wall cracks, sleeping quarters of household pets and localized areas of floors and floor coverings. Applications should be repeated as infestations warrant and as re-infestations occur. Fresh bedding should be placed in animal quarters following treatment. Do not treat animals with this formulation.

FLIES, MOSQUITOES, WASPS AND FLYING MOTHS OUTDOORS: For outdoor use only as an aid in reducing annoyance from these insects. Spray outside surfaces of screens, doors, window frames or wherever these insects may enter the rooms. Also treat surfaces around light fixtures on porches, in garages, and other places where these insects alight or congregate.

FLEAS, CHIGGERS, ANTS AND BROWN DOG TICKS OUTDOORS: For treatment of localized infestations of these insects in outdoor areas where there is no vegetation, spray infested areas thoroughly. For ants, thoroughly wet hills and runways. Repeat applications as infestations warrant and as re-infestations occur.

Do not reuse empty container. Destroy it by perforating or crushing. Bury or discard in a safe place.
