

ROACH-O acts as an internal and contact poison to Roaches, Water Bugs, Ants and Centipedes. It does not kill immediately but allows ample time to convey the powder on their bodies to their young, in inaccessible crevices in the walls, and in this manner causes effective control of roaches.

ACTIVE INGREDIENTS:

Sodium Fluoride	29.32%
Sodium Fluosilicate	.40%
Pyrethrins	1.00%

INERT INGREDIENTS:

Pyrethrum Powder	39.00%
Sodium Sulphate	.27%
Sodium Chloride	.01%
Pyrophyllite	30.00%

TOTAL 100.00%

ROACH-O

U.S.D.A. REG. NO. 406-7

Kills

**ROACHES, WATER BUGS,
ANTS, CENTIPEDES.**

WARNING

**KEEP OUT OF REACH OF CHILDREN
AND DOMESTIC ANIMALS.**

May be fatal if swallowed. Do not breathe dust. Do not contaminate feed and food stuffs.

ANTIDOTE: — Take an Emetic, such as Ipecac or Mustard to cause vomiting. Call Physician.

READY TO USE • NO FUSS • NO MUSS

DIRECTIONS

For ANT CONTROL—Dust Ant trails and areas around door sills and window frames where the pests enter.

For CENTIPEDE CONTROL — Dust storage localities and other infested areas in basement.

For ROACH CONTROL—The dust must be placed only in areas inaccessible to children and pets. Any powder visible after application is completed should be carefully brushed into cracks and crevices or else removed. Such dusts may be applied on surfaces behind sinks, refrigerators, stoves and cabinets that are not accessible to children and pets. Apply ALL of the powder in one thorough application, and be sure to allow it to remain, UNDISTURBED, until the Roaches, Ants or Centipedes have disappeared.
