

## DIRECTIONS FOR USE

Remove protective cap, hold container upright, nozzle away from you. With nozzle 10 to 12 inches away, direct spray over the animal. Beginning at the tail, spray over the animal until the entire coat is damp up to back of neck. On long-haired dogs, ruffle the coat and spray against the lay of hair, spraying directly behind hand so that spray reaches skin. For best results in controlling tick infestations, locate ticks and spray directly on them. Avoid spraying face and scrotum.

An application of 30 to 45 seconds is usually sufficient for an average size dog. Repeat application weekly if necessary. Note: Do not treat or cause exposure of puppies less than four weeks old.

In kennels or other sleeping quarters to control these insects and to deodorize the quarters, spray the animal regularly as above and spray bedding, walls, cracks, crevices and flooring as often as necessary. This product contains a bactericidal ingredient which aids in the control of odors due to bacteria on the animal and on surfaces of animal quarters and bedding.

**CAUTION:** Harmful if swallowed or inhaled. Avoid breathing of spray mist. Avoid contact with skin; wash thoroughly after use. Avoid contamination of feed or foodstuffs.

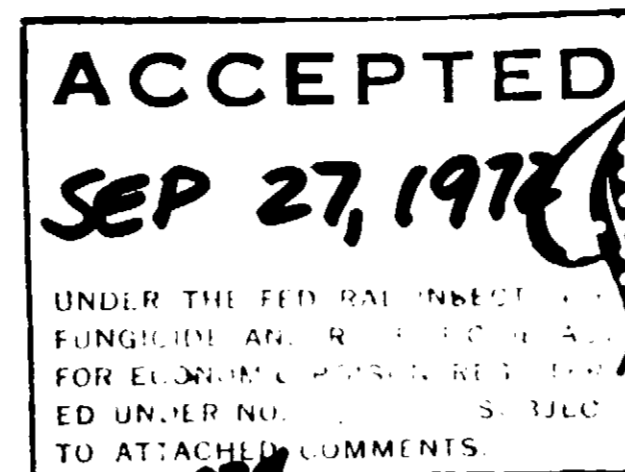

**WARNING:** Contents are under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 130°F. may cause bursting. Never throw container into fire or incinerator.

## NOTICE

Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use. Neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use.

# FLEA AND TICK SPRAY FOR DOGS

A specially designed formulation that kills Fleas, Ticks and Lice — stops scratching due to these pests and controls re-infestation of these unwanted parasites.

Also designed into this formulation is a repellent, that keeps gnats, mosquitoes and flies away for some time after application.

In addition, there is a deodorant that controls bacterial odors. After application your pet has a clean, fresh scent.

<b>ACTIVE INGREDIENTS</b> .....	<b>6.59%</b>
Pyrethrins .....	0.06%
*Piperonyl Butoxide, Technical .....	0.60%
Carbaryl (1-Naphthyl N-methylcarbamate) .....	0.50%
Butoxypolypropylene glycol .....	5.90%
2,2'-Methylenebis (4-chlorophenyl) (Dichlorophene) .....	0.10%
Petroleum Distillate .....	0.33%
<b>INERT INGREDIENTS</b> .....	<b>93.41%</b>

\*Equivalent to 0.48% (butylcarbityl) (6-propylpiperonyl) ether and to 0.12% of related compounds.
