

GENERAL DIRECTIONS

This product is a specially prepared ready-to-use insecticide suitable for use in conventional hand power or automatic sprayers and in backrubbers. It is approved for lactating dairy animals. No pre-slaughter interval is necessary for beef animals.

USE DIRECTIONS

Do not wet the skin due to possible skin irritation. Do not apply regularly to calves under 6 months old. Brahman cattle should not be treated as they may show some hypersensitivity to organic phosphates.

Lactating Dairy and Beef Animals: Flies—Horn Fly, Stable Fly, Face Fly, House Fly. Make a light application to moisten the hair only and not in excess of 2 fluid ounces daily per animal. Make application as a fine mist to thoroughly cover all parts of the animal including legs and under side.

Lactating Dairy and Beef Animals: Lice. Make 1 to 2 applications of 3 to 3 1/2 ounces at 14 day intervals as a fine mist to thoroughly cover all parts of the animal. If material is applied by fogging or misting equipment the maximum spray interval is 20 seconds.

EPA Reg. No. 107-335

Equivalent to 0.25% Vapona[®] Insecticide

CAUTION

KEEP OUT OF THE REACH OF CHILDREN

DO NOT USE, POUR, SPILL OR STORE NEAR HEAT OR OPEN FLAME

NET CONTENTS ONE U. S. GALLON

Manufactured by: **IMPERIAL INC.** Shenandoah, Iowa 51601

USE DIRECTIONS

Backrubbers: For control of horn and face flies, use 1 gallon for each 20 linear feet of burlap backrubber. Recharge every 2 weeks or as needed for control. For automatic backrubbers, recharge the reservoir as needed. Animals must rub faces for best face fly control. Wrap and charge brace wires and support poles to within 18 inches of ground to allow animals to rub their face and heads. DO NOT allow animals to use a backrubber saturated to the point of run-off.

CAUTION

Harmful if swallowed. Avoid inhalation of mist and contact with skin, eyes, or clothing. In case of contact, flush with plenty of water, for eyes, get medical attention. Wash thoroughly with soap and water after handling and before eating and smoking. If swallowed, induce vomiting immediately and get medical attention. Atropine and 2-PAM are antidotal.

Do not contaminate feed or food stuffs.

Do not contaminate water by direct application, cleaning of equipment or disposal of waste.

Do not reuse container. Destroy by crushing and burying in non-crop land away from water supplies.
