[illegible] not broadleaved weed. Plant [illegible] and [illegible] a temporary residual in the soil for control of weeds as they germinate. Action is [illegible] and several days may be required before effects become fully evident. Control is normally maintained for extended periods up to a full season.

Partial list of species controlled includes: dandelion, [illegible] quackgrass, plantain, bermudagrass, bittercress, mustard, [illegible] pepperweed, lilac, spotted spurge, watergrass, crabgrass.

This product is recommended for killing weeds and [illegible] weed growth in driveways, walkways, parking areas, [illegible] around greenhouses and other buildings, and in other [illegible] where vegetation is not wanted, and also for edging walkways, driveways and curb areas.

PREPARING THE SPRAY: This product may [illegible] emulsifies with water. Add the required amount to the water and [illegible] a uniform mixture is obtained. If mixture is allowed to stand, restir before using.

FOR SPRAYER APPLICATION: Add one pint WEED AND GRASS KILLER NO. 2 to 2½ quarts of water. Spray vegetation to be killed. Also spray soil or gravel to prevent new weed seedlings from emerging. Use this amount of spray mixture for [illegible] area for top soil or weeds and temperatures [illegible] of new weed seedlings. Where weeds are [illegible] to maximum [illegible] for better penetration of spray [illegible] with the thorny parts of the plant.

FOR SPRINKLER CAN APPLICATION: Add one pint WEED AND GRASS KILLER NO. 2 to [illegible] gallons of water. Use this amount for 250 square feet of area or for spot treatment of weeds and [illegible] of the [illegible] of weeds. When weeds are [illegible] to maximum [illegible] for better penetration of spray [illegible] with the thorny parts of the plant. Use enough spray to wet the foliage, but not enough to cause run-off to the soil. Avoid as much as possible wetting both the soil and the [illegible] Do not apply when the soil is [illegible] wet. Do not [illegible] Use [illegible] for [illegible] Do not [illegible] Use [illegible] for [illegible] Do not [illegible] Use [illegible] for [illegible]
