

FOR FOGGING: May be used in Fog Generators to kill flying stages of listed insects and to decrease the number of listed grain and stored product insects that might be present at the time of fogging. Apply at a rate not to exceed 5 pints per 1,000 cubic feet, only to those areas where the grain and other food products have been removed. Doors windows and other openings should be kept closed 20 to 30 minutes after fogging or over night. Do not use in any way which might contaminate grain, food, or food utensils.

NOTICE

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, express or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if swallowed. Avoid contact with eyes and skin. In case of skin contact, wash with soap and water. Avoid inhalation of spray mist. Avoid contamination of food and feed.

ENVIRONMENTAL HAZARDS

Keep out of lakes, ponds, or streams. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not contaminate water used for irrigation or domestic purposes.

PHYSICAL OR CHEMICAL HAZARDS

Do not use, pour, spill or store near heat or open flame.

IMPORTANT: Read the entire Directions for Use and the Conditions of Sale and Warranty before using this product.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

STORAGE: Store in original container, in a cool, dry, secure area away from fertilizer, food, or feed. Keep container closed. Store at temperatures above 32°F.

PRODUCT DISPOSAL: Securely wrap original container in several layers of newspaper and discard in trash.

CONTAINER DISPOSAL: Do not reuse container. Wrap container and put in trash.

Uniformly spray 1 gallon per 333 sq. ft. of soil surface or a strip 4 inches wide, 1,000 feet long, undiluted. Thoroughly wet all foliage to insure contact action. Best results are obtained when applications are made during or soon after weed emergence while growth is succulent. Where vegetation is tall and dense, use 1 gallon per 200 sq. ft., a strip 4 inches by 600 feet long. For control of hard-to-kill perennial weeds and grasses such as Johnsongrass, bindweed and wild carrot, use 1 gallon per 83 sq. ft. Although VEGETATION KILLER has considerable activity through foliar contact, much of its activity is through the roots and therefore adequate rainfall to move the chemical into the root zone is necessary.

Under conditions where the rainfall is high and the growing season long, a second application may be necessary to maintain a weed-free soil surface.

Care must be taken to keep this herbicide away from desirable flower beds, lawns and shrubs. Do not apply over roots of valuable trees, or woody ornamental plants. Only apply herbicide outside the drip line of trees.

NOTICE

Since weather and other conditions under which this product may be used will vary, the seller makes no warranty of any kind, express or implied, concerning the use of this product. The user assumes all risks of use or handling not in accordance with directions or suggestions.
