

C-6531

EAR WAX REMOVER

with Miticide

for Dogs and Cats
with AQUALANA ACTION

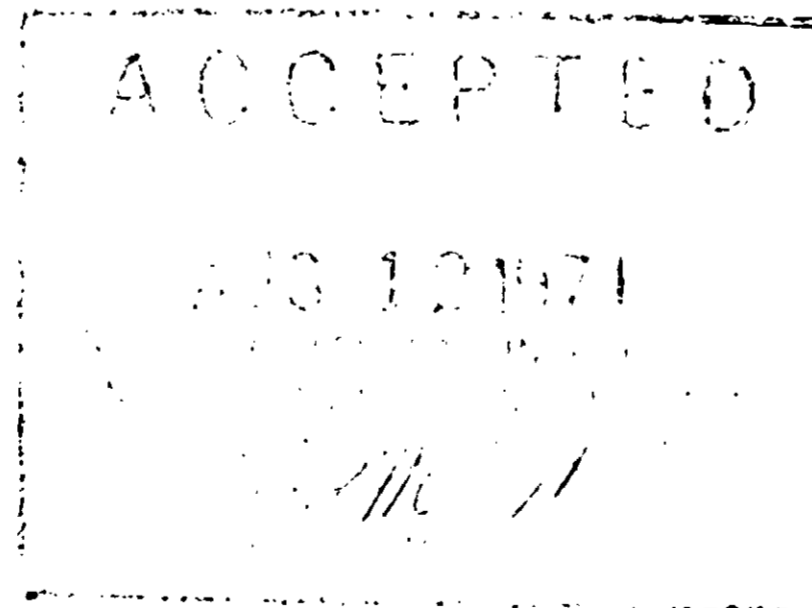

USDA Reg. No. 410-71

1 FL. OZ.

**CAUTION: Keep Out Of
Reach Of Children**

Prepared for

FRANKLIN LABORATORIES, INC.
DENVER, COLO. 80222, U.S.A.

REDUCE TO 50%

Gaypet Ear Wax Remover with Miticide penetrates, fragments, and softens accumulated ear wax effectively while providing control for mites. It is useful in the treatment of bacterial irritation often associated with ear mite infestation.

DIRECTIONS

Apply 10-20 drops daily to each ear, using a non-absorbent cotton plug to prevent run-out. Massage around the base of the ear for a few minutes, then wipe out excess material with cotton plug.

**CAUTION: Do not reuse container.
Destroy when empty.**

Active Ingredients: 2,2'-Methylenebis (4-chlorophenol) (Dichlorophene), 0.50%; Technical Piperonyl Butoxide*, 0.50%; Pyrethrins, 0.05%; Allantoin, 0.40%.

Inert Ingredients: 98.55%

*Equivalent to 0.40% (butylcarbityl) (6-propylpiperonyl) ether and 0.10% related compounds.
