For Flying Insects Use Cenol
Super Spray in Your Sprayer.
TO CONTROL
FLIES, MOSQUITOES
AND GNATS

ANTS Thoroughly spray or paint ant trails and areas around doors, sills and window frames where the ants may enter. Treat the plumbing and water pipes, heat ducts, electrical outlets and baseboards where ants may come into rooms from wall spaces and partitions. Repeat application as necessary.

BOXELDER BUGS Thoroughly spray or paint around doors and window frames or wherever these pests may enter rooms. Repeat application as necessary. Thoroughly spray areas where these insects crawl or congregate on porch or side of houses. Thoroughly spray trunks and lower limbs of boxelder trees when insects are young. Use only water-emulsion spray on trees.

BROWN DOG TICK Thoroughly spray or paint around baseboards, window and door frames, wall cracks, sleeping quarters of household pets and localized areas of floors and floor coverings. Place fresh bedding in animal quarters following treatment. Repeat application as necessary.

CARPET BEETLES Thoroughly spray or paint infested areas of carpets, localized areas of floors and baseboards, shelves of closets. Repeat application as necessary.

CENTIPEDES Thoroughly spray or paint infested baseboards, corners, pipes, storage localities and other infested areas in basements. Repeat application as necessary to maintain effective control.

CRICKETS Thoroughly spray or paint baseboards, floor, and other hiding places and other hiding places. Repeat application as necessary.

HOUSEFLIES Thoroughly spray or paint selected surfaces of porches around windows and areas frequented by flies. To prevent the entry of flies into human dwellings, thoroughly spray or paint screens, window frames, doorsills, and selected areas of porches where they enter to light and concrete. Repeat application as necessary.

MOSQUITOES Same as for houseflies.

ROACHES Thoroughly spray or paint infested areas and other hiding places and of adjacent exposed surfaces where roaches will crawl when they come out of hiding. Repeat application as necessary.

SCORPIONS To prevent entry of scorpions, thoroughly spray or paint around doorsills, window frames, and areas where these insects may enter the premises. Also, thoroughly spray surfaces in garages and buildings other than human dwellings. Repeat application as necessary.

SILVERFISH Thoroughly spray or paint around areas behind screens, baseboards and storage areas.

SPIDERS Same as for centipedes.

WATERBUGS Same as for roaches.

Do not use this product on vegetation — Use 40% Cenol Tensite and Cenol 6% Chlordane Dust

CAUTION: Harmful if swallowed. Contact with skin can cause toxic symptoms. Avoid breathing spray mist. In case of contact with skin, wash with soap and water. Avoid contamination of feed and foodstuffs. Keep away from children and house pets. Toxic to fish and wildlife. Do not contaminate any body of water by direct application, cleaning of equipment or disposal of wastes and containers. Keep away from open flame. Do not contaminate ornamental fish ponds. Do not reuse empty container. Destroy it by perforating or crushing. Bury or discard in a safe place away from water supplies. **ANTIDOTE:** Internal—Emetic of 1 tablespoon mustard in tumbler of water. Call a physician.
