# Cenol

**REPELS**  
**FLIES, GNATS, TICKS**  
**MOSQUITOES, CHIGGERS**

Remove protective cap, hold dispenser upright. Point valve toward surface to be sprayed. Press the button to release the spray.

To repel such insects as mosquitoes, biting flies, and flies, gnats, ticks, chiggers (or Red Bugs), spray on exposed skin and clothing where insects are biting through. Spray from a distance of 12 inches or more, making sure to spray cuffs of trousers, socks, and other openings in clothing. Repeat when needed.

To apply to face, spray a small amount on hand and spread on face avoiding eyes and mouth.

Spray on screens and screen doors to prevent gnats and other smaller insects from entering premises.

**Caution:** Avoid spraying eyes and mouth. Do not spray on varnished surfaces. Keep away from open flame and excessive heat.

**CAUTION:** Contents under pressure. Do not shake. Exposure to high temperature may cause leakage. Keep at room temperature, away from radiators, radiators, stoves, hot water, and other heat sources. Never throw contents into fire or incinerator.

Active Ingredients: Pyrethrin 0.10%  
Permethrin 0.10%  
Other Chemical Esters 0.10%  
Inert Ingredients 99.70%  
100.00%
