## DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling

### STORAGE & DISPOSAL

**STORAGE:** Do not store near heat or open flame. Do not reuse empty container.

**DISPOSAL:** Wrap container and put in trash collection.

**OUTDOORS AND INDOORS FOR ORNAMENTAL PLANTS** — To kill aphids, climbing cutworms, Japanese beetles, leaf hopper nymphs, red spider mites, thrips and whiteflies on certain ornamentals such as roses, gladiola, azalea, chrysanthemum, and on house plants. Spray shrubs, bushes and grassy areas while moving away from area. Spray with the breeze, allowing mist to drift into shrubbery and other places. As an area spray, mist porches, patios, picnic areas. Repeat as necessary. Avoid wetting, a light spray kills bugs effectively. Spray plants in short bursts only and when the temperature is below 90°F. Repeat as necessary in 7 day intervals. Use caution on young plants and new growth. Do not spray on food crops.

**INDOORS** — To kill house flies, mosquitoes, gnats, flying moths (millers), fruit flies — Close all doors and windows. Keep sprayer 2 feet from indoor surfaces. Pointing sprayer upward, fill room with mist. Leave treated area closed at least 15 minutes. Ventilate room when treatment is completed.

To kill cockroaches, water bugs, spiders, ants — spray directly on insects when possible. Spray thoroughly baseboards, cracks, crevices, and in back of and under appliances, sinks, and cupboards where these pests have harborages. For spiders spray directly on these pests and use repeated applications to the webbing and all cracks and crevices which harbor spiders. To kill ants — Spray doors, around window frames, ant trails and hills.
