

DIRECTIONS FOR USE

For Disinfecting In:

RESTAURANTS, TAVERNS, FOUNTAINS: First wash glasses, dishes, utensils and cooking equipment in a detergent cleaning solution which does not contain soap. Preferably rinse first with clear water, then rinse again for not less than 30 seconds in a solution containing 2 ounces of Quaternary Ammonium Germicide to each 4 gallons of water. Rinse with potable water. Always allow equipment to air dry. Do not towel.

DAIRIES, FOOD PLANTS, PACKING HOUSES AND FOOD LOCKERS: Surfaces to be disinfected should first be thoroughly cleaned with a soapless cleaner. Then use 1 ounce of Quaternary Ammonium Germicide to 2 gallons of water as a spray or rinse for all working surfaces as well as walls, to control bacteria ~~and mold~~ growth. Work tables, meat blocks and other places with which food may come in contact should be rinsed with clear water after disinfecting.

DEODORIZING REFUSE CONTAINERS, LOCKER ROOMS, DAMP BASEMENTS: Use 2 ounces of Quaternary Ammonium Germicide in 1 gallon of water and spray over garbage and around toilet rooms. This will destroy objectionable odors without leaving a "disinfectant" smell behind.

Varco

QUATERNARY AMMONIUM GERMICIDE

PHENOL COEFFICIENT 20 A.O.A.C.

"The Versatile Disinfectant"

DANGER: KEEP OUT OF REACH OF CHILDREN

(See side panel for further precautions)

ACTIVE INGREDIENTS		10%
Methyldodecylbenzyl trimethyl ammonium chloride		8%
Methyldodecylxylylene bis(trimethyl ammonium chloride)		2%
INERT INGREDIENT, Water		90%

A Product of *James Varco & Sons, Inc.* ST. LOUIS, MO.

DIRECTIONS FOR USE

For Disinfecting In:

SICKROOMS: Use 1 ounce of Quaternary Ammonium Germicide in 2 gallons of water, spray the air several times a day in the sickroom to deodorize. This will keep the air smelling fresh. Treat patient's dishes as directed under "Restaurants". Trays and bedpans should be disinfected with 1 ounce of Quaternary Ammonium Germicide to 2 gallons of water for five minutes after they have been thoroughly cleaned and rinsed.

BARBER AND BEAUTY SHOP EQUIPMENT: Clean combs and brushes with a suitable detergent solution then soak for several minutes in a solution of 1 ounce of Quaternary Ammonium Germicide to 1 gallon of water.

DANGER:

Causes severe eye and skin damage. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful if swallowed. Avoid contamination of food.

FIRST AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call physician immediately. Remove and wash contaminated clothing before reuse. If swallowed, do not induce vomiting, drink large quantities of fluid and call a physician immediately.

Rinse empty container thoroughly with water and discard it.
