 Sod Webworms, Fall Armyworms, Mele
 Crickets, Fleas, Ticks, Pill Bugs (Sow
 Bugs) White Grubs, and Cut-Worms,
 Red Ants and Cut Ants

ATTENTION: Read the Directions before
 using this product. Be sure you under-
 stand them and you will get better and
 more uniform results.

RED ANTS & CUT ANTS

To kill Red Ants or Cut Ants in parks,
 lawns, near roads, fence rows or barns
 and lots, pour from 10 to 30 gallons
 of a mixture of 1 tablespoonful of 73%
 Chlordane dissolved in one gallon of
 water into underground tunnels of Cut
 Ants and saturate surface of the col-
 onies well. For Red Ants use one or
 more gallons of this same mixture in
 a like manner. Repeat treatments if
 the ants remain alive after a week.

BARN SPRAY

To control House Flies, Mosquitoes,
 Fleas, and Fleas on and
 and on floors, hog pens and
 dog kennels spray inside walls, ceiling
 and on ground with Durham's 73%
 Chlordane. Enulsifiable Concentrate dis-
 solve at 200 parts of concentrate to 1
 part of water. Repeat when necessary.

WARNING: Do not use on crops to be
 fed dairy animals or
 animals being finished for slaughter.

GRASSHOPPERS

To kill Grasshoppers dilute 1 part of
 73% Enulsifiable Chlordane Concen-
 trate with enough water to treat 2
 acres. When grasshoppers are feeding
 on weeds and grass around fields spray
 the weeds and grass. If grasshoppers
 are feeding on corn or cotton spray
 the crops with the dilution rate rec-
 ommended above. Repeat the treatment in 7
 to 10 days if necessary for control.

WARNING: Do not use on crops
 to be fed dairy animals or
 animals being finished for slaughter.
 Do not use on cotton after bolls are
 open. Do not graze treated fields by
 dairy animals or animals being finished
 for slaughter.

WARNING: This product is toxic to
 fish and wildlife and birds feeding on
 treated areas may be killed. Keep out
 of the body of water. Do not apply
 when weather condition favor drift
 onto untreated. Do not contaminate
 water by releasing of equipment
 into water. APPLY THIS PROD-
 UCT TO THE WATER.
