

# DEODORANT

An excellent germicide which destroys many microbes

# DISINFECTANT

There is new pleasantness and new freshness in the air when you use LEMON Scented DISINFECTANT. No "rest room odor", just a lovely and nice scent of fresh peeled lemons.

While LEMON Scented DISINFECTANT is killing many germs it is cleaning the surface and leaving premises cleaned and sanitized.

## DIRECTIONS FOR USE

**FOR GENERAL DISINFECTION:** Be sure all dirt is swept up and removed before applying disinfectant, and make sure disinfectant solution comes in contact with all contaminated areas. To disinfect floors, walls and woodwork, use a solution of 1 part disinfectant to 120 parts water. This solution destroys Salmonella typhosa, Staphylococcus aureus and Salmonella choleraesuis.

**TYPHOID SICK ROOM:** All utensils such as bed-pans and urinals, wash with a solution of 3 ounces of disinfectant to a half gallon of water. For soaking clothing and linens used in sick room, prior to laundering, mix 3 ounces of disinfectant to 1 gallon of water. Mix disinfectant with water before using.

**URINALS:** Use 3 ounces of disinfectant to a gallon of water. Apply freely to all surfaces to be disinfected. Scrub the exposed areas.

**GARBAGE:** To deodorize, mix half cup disinfectant with 1 gallon water. Sprinkle with solution. Wash empty can with some of solution and leave the wash in can.

**MOPPING:** Use half cup disinfectant to 2 gallons water for mopping, scrubbing, sprinkling or cleaning purposes.
