

FOR CLEANING AND DEODORIZING: Prepare a solution of 1 part to 50 parts of water containing 100 ppm of effective germicide (providing adequate disinfecting action) and apply freely to contaminated surfaces. Remove excess solution. Rinse treated food surfaces or equipment with potable water before re-use.

FOR DISINFECTING AND DEODORIZING: Prepare a solution of 1 part to 50 parts of water containing 100 ppm of effective germicide (providing adequate disinfecting action) and apply freely to contaminated surfaces. Remove excess solution. Rinse treated food surfaces or equipment with potable water before re-use.

This product is non-volatile, non corrosive to inanimate surfaces and non flammable in use dilutions.

This product is specifically formulated for use as a multi-purpose liquid disinfectant cleaner and deodorant. Exerts quality cleaning, disinfecting and deodorizing properties in one operation. Recommended for cleaning and disinfecting of all types of floors, walls, woodwork, furniture and kitchen equipment. Bathroom fixtures such as toilet bowls, urinals, wash basins, showers, etc. can be easily cleaned and disinfected. Recommended for use on sickroom equipment such as bed pans, emesis basins and trays.
