In case of contact with skin, wash thoroughly with water and if irritation persists, get medical attention. Avoid inhalation of fumes of undiluted material.

FIRST AID: If swallowed, do not induce vomiting. Give raw egg white, milk, rice gruel or cornstarch paste. Call a physician immediately.

**RINSE EMPTY CONTAINER
THOROUGHLY WITH WATER
AND DISCARD IT**

**DO NOT USE, POUR, SPILL OR STORE
NEAR HEAT OR OPEN FLAME.**

EPA Reg. No. 421-400

FOR GENERAL DISINFECTING

For general disinfecting of surfaces such as walls, floors and woodwork, remove all filth and dirt from the premises and use a solution of one part disinfectant to 100 parts of water. This mixture acts as a disinfectant against S. typhosa. Apply freely to all surfaces and scrub with a mop, brush or cloth.

In the typhoid sick room, for disinfecting hard surface areas such as bed frames, bed pans and urinals, use one-half cup of the disinfectant to two gallons of water in a mop bucket for mopping, scrubbing or cleaning purposes.

DIRECTIONS FOR USE

FOR THE SICK ROOM: All utensils, such as bed-pans and urinals, wash with a solution of three ounces of disinfectant to 1/2 gallon of water.

WATER CLOSETS and URINALS: Use 3 ounces of disinfectant to a gallon of water. Apply freely to all surfaces to be disinfected and scrub the exposed areas.

GARBAGE: To deodorize, sprinkle with solution, one-half cup to a gallon of water. Wash the empty can with some of the solution and leave the wash in can.

PYN-A-ROMA DISINFECTANT

Phenol Coefficient 5 by A.O.A.C. Method

ACTIVE INGREDIENTS: 26.5%

- (1) Isopropyl Alcohol (2) Soap
- (3) Pine Oil (4) Orthophenyl phenol
- (5) Orthobenzyl para-chlorophenol

INERT INGREDIENTS: 73.5%

(1) Water

DIRECTIONS FOR USE

This disinfectant can be used many places where clean and sanitary quarters are desired. A partial list of places using this type of disinfectant follows: Hotels, schools, institutions, office buildings, factories, jails, public buildings, railroad terminals, theatres, stores, sanitariums.

Every batch is tested for germicidal strength in a modern bacteriological laboratory – but before these tests are made the raw materials are checked in our chemical laboratories – and the finished product is then double checked.

CAUTION: Harmful if swallowed. Causes eye irritation. Avoid getting in eyes. Avoid prolonged skin contact. In case of contact with eyes, wash thoroughly with water. If eye irritation persists, get medical attention.

FIRST AID: If swallowed, do not induce vomiting. Give raw egg white, milk, rice gruel or cornstarch paste. Call a physician immediately.
