STATEMENTS
HAZARDS TO HUMANS &
DOMESTIC ANIMALS**

CAUTION

Do not contaminate feed or foodstuffs. Not for use on horses intended for food. Remove pets, birds and cover fish aquariums before spraying.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on the label.

Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

ON HORSES AND PONIES

Brush the animal thoroughly to remove loose dirt and dust.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

ON HORSES AND PONIES

Brush the animal thoroughly to remove loose dirt and dust. Prepare the appropriate dilution of Durham's Horse-Pony and Premise Spray in the amount required for immediate use (about one quart per horse). Diluted Durham's Horse-Pony and Premise Spray should be used within 24 hours.

To Kill and Repel Horse Flies, Horn Flies, Gnats and Mosquitoes: Dilute 1 part concentrate with 14 parts water.

To Kill and Repel Horse Flies, Stable Flies, Dear Flies and Face Flies: Dilute 1 part concentrate with 9 parts water. Moisten (do not soak) a folded 12" square piece of turkish toweling with the dilution. Rub against, then with hair growth. Give special attention to facial areas, neck, legs, shoulders and shanks where the flies are most often seen. Avoid contact with eyes or nostrils. Apply thoroughly to moisten hair. If desired, the sheen of the coat may be enhanced by tight brushing following application. For best results, apply Durham's Horse-Pony and Premise Spray daily.

To Kill Flies and Lice: Using a dilution of 1 part concentrate to 49 parts water, apply enough spray to thoroughly wet the skin of the animal. Repeat treatment as necessary. To help in prevention of reinfestation, thoroughly spray premises and sleeping quarters, paying particular attention to cracks and crevices.

To Kill Attached Ticks: Saturate a cloth with this concentrate and daub directly on ticks. Avoid contact with eyes or nostrils.

IN HORSE BARN, STABLE AND TACK ROOMS.

To control flies, mosquitoes, and gnats, dilute at a rate of 1 part concentrate to 24 parts water or oil and apply as a fog or fine mist directing spray toward the ceiling and upper corners until the area is filled with mist using about 2 ounces per 1000 cubic feet of space. For best results, close doors and windows before spraying and keep them closed for ten to fifteen minutes. Vacate the area and ventilate before reoccupying. Repeat application as necessary.

USE AS A WATER SPRAY: 1-9 Dilution: Mix 1 quart of emulsifiable concentrate Durham's Horse-Pony and Premise Spray with 9 parts water to make 2½ gallons of spray. Stir before using. Apply at the rate of 1 pint to 1 quart of diluted spray per animal, depending on the size of the animal.

Horn Flies, Mosquitoes, and Gnats: Apply as necessary to give continued protection.

Stable Flies and House Flies: Apply as necessary to give continued protection.

Horse Flies and Dear Flies: Apply as necessary to give continued protection. This dilution will kill horse flies, stable flies, house flies, horn flies, mosquitoes, and gnats on the animal at the time of application.

1-14 Dilution: Mix 1 quart of emulsifiable concentrate Durham's Horse-Pony and Premise Spray with 14 quarts of water to make 3½ gallons of spray. Stir before using. Apply at the rate of 1 pint to 1 quart per animal depending on the size of the animal.

Horn Flies, Mosquitoes, and Gnats: Apply as necessary to give continued protection. This dilution will kill horn flies, mosquitoes and gnats on the animal at the time of application.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE AND SPILL PROCEDURES:

Store upright at room temperature. Avoid exposure to extreme temperatures. In case of spill or leakage, soak up with an absorbent material such as sand, sawdust, earth, fuller's earth, etc. Dispose of with chemical waste.

PESTICIDE DISPOSAL:

"Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility."

CONTAINER DISPOSAL:

Triple rinse (or equivalent) then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other approved State and local procedures.

CONTAINERS ONE GALLON AND SMALLER:

Do not reuse container. Wrap container in several layers of newspapers and discard in trash.
