FOR MANUFACTURE OF RODENTICIDES ONLY

Not For Resale Under This Label

ACTIVE INGREDIENTS:

\*Warfarin (3-( $\alpha$ -acetylbenzyl)-4-hydroxycoumarin) ..... 0.5%  
N-1-(2-Quinoxaliny)ulfanilamide (sulfaquinoxaline) ..... 0.5%

INERT INGREDIENTS: ..... 99.0%  
100.0%

Prolin<sup>®</sup> (Warfarin plus an antibacterial agent) is a registered trademark of the Wisconsin Alumni Research Foundation.  
\* Only Warfarin tested and certified for quality and performance by the Wisconsin Alumni Research Foundation is used for Prolin Concentrate

**CAUTION: KEEP OUT OF REACH OF CHILDREN.**

Keep away from children, pets, domestic animals and wildlife. Do not contaminate water by cleaning of equipment, or disposal of wastes. Keep out of lakes, streams or ponds.

If swallowed by humans, pets, domestic animals or wildlife this material may reduce the clotting ability of the blood and cause bleeding. In such case, intravenous and oral administration of vitamin K combined with blood transfusions are indicated as in the case of hemorrhage caused by overdoses of bishydroxycoumarin.

This rodenticide contains warfarin, an anticoagulant chemical that reduces the clotting ability of the blood and, upon repeated feedings, causes fatal hemorrhage in rats and mice. It also contains an antibacterial agent which inhibits bacteria that produce vitamin K, an antidote for warfarin.

CONTAINER DISPOSAL - Do not reuse empty container. Destroy it by perforating or crushing. Bury or discard in a safe place away from water supplies.

DIRECTIONS FOR REFORMULATION

PROLIN CONCENTRATE is intended for use in the formulation of rat or mouse baits. For formulation information and label registration guidance, consult Penick's Technical Bulletin #TB-7406. Address requests to the attention of the Technical Service Department of S.B. Penick & Company, 215 Watchung Avenue, Orange, N.J. 07050.

TERMS OF SALE AND WARRANTY

S.B. Penick & Company warrants that this product conforms to the chemical description on the label, and is reasonably fit for the purpose referred to in the DIRECTIONS FOR REFORMULATION. No other expressed or implied warranty of fitness or merchantability are made or any other expressed or implied warranty. S.B. Penick & Company shall in no case be liable for consequential, special or indirect damages resulting from the misuse or improper handling of this product. S.B. Penick & Company offers this product and the buyer accepts it subject to the foregoing conditions of sale and warranty. These may be varied only by agreements in writing signed by duly authorized representatives from S.B. Penick & Company.

PROLIN<sup>®</sup> P-1000 PROLIN<sup>®</sup> CONCENTRATE

COMMERCIAL MIXTURES: For baiting of rat and mouse

CHEMICAL CHARACTERISTICS

- Warfarin Content ----- 0.125%
- Sulfathiazole Content ----- 0.4%
- Appearance ----- Green powder
- Mesh Size ----- 40

FORMULATION GUIDE

In order to produce a finished rat bait containing 0.025% warfarin and 0.025% sulfathiazole, mix thoroughly 5 parts by weight of Prolin with 80 parts of steamed rolled oats, 10 parts of ground corn flakes, 3 parts of powdered sugar and 2 parts of corn oil. For a finished mouse bait containing 0.025% warfarin and 0.025% sulfathiazole, mix thoroughly 5 parts by weight of Prolin with 40 parts of hulled steel-cut oats, 2 parts of powdered sugar and 1 part of corn oil.

LABEL INFORMATION

This concentrate is suitable to prepare a bait containing 0.025% warfarin and 0.025% sulfathiazole. Refer to specimen label "Your Brand" for rat bait or "Mouse bait."

GUIDELINES FOR REGISTRATION

Formulators of finished baits using Prolin<sup>®</sup> are responsible for providing the data to support registration of their "Your Brand" bait. Registration should be made known by written directive to the Director of the Federal Bureau of Investigation, Bureau of Entomology and Plant Quarantine, Washington, D.C. 20540.

NOTES

Prolin<sup>®</sup> may be used in conjunction with other rodenticides and insecticides.
