Precautionary Statement

NET WEIGHT:

ACCEPTED

3 SEP 1998

Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 432-492

PRECAUTIONARY STATEMENTS

Hazards To Humans & Domestic Animals

CAUTION
Harmful if swallowed. Avoid contact with eyes, skin or clothing. Wash hands after use. Cover or remove exposed foods. Avoid contamination of cooking utensils and food preparation surfaces. Do not spray animals. Remove pets, birds and cover fish aquariums before spraying. Do not use on food crops. In case of eye contact, flush eyes with plenty of water. Get medical attention if irritation persists.

Environmental Hazards

This pesticide is highly toxic to fish. For terrestrial uses, do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Drift and runoff from treated sites may be hazardous to fish in adjacent waters. Do not contaminate water when disposing of equipment washwaters.

Physical And Chemical Hazards

Contents under pressure. Do not puncture or incinerate container. Do not use or store near heat or open flame. Exposure to temperatures above 130°F may cause bursting.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE & DISPOSAL

Storage: Keep in locked storage area.
Container Disposal: Replace cap and discard container in trash.

Shake well before each use. Remove protective cap. Aim spray away from people. Push button to spray. Apply this product only as specified on this label.

INDOORS

TO KILL HOUSE FLIES, MOSQUITOES AND GNATS: Close all doors and windows. Point nozzle upward, direct the spray mist to all parts of the room, especially windows and other light sources which attract these insects. Fill the room with mist, then leave the treated area. Keep the room closed for at least 15 minutes. Ventilate the room when treatment is completed.

INDOORS-TO KILL CRAWLING INSECTS: *Roaches, Earwigs, Grain Mites, Sowbugs, Silverfish, Spiders and Centipedes:* Spray thoroughly into hiding places such as cracks, crevices, moist areas, openings around pipes and sinks, under refrigerators, baseboards, and storage areas. Spray directly on insects where possible. Repeat as necessary.

TO KILL ANTS: Spray trails, nests and points of entry. Spray on ants where possible. Repeat as necessary.

TO KILL GRAIN BEETLES: *Confused Flour Beetles, Saw-toothed Grain Beetles, Lesser Grain Borer-* Remove infested grain, cereal or flour and destroy. Avoid contamination of other food and foodstuffs in the area by removing before spraying. Spray directly on exposed stages and into cracks and crevices where grain beetles may be hiding. Repeat as necessary.

SBP-1382[®] AQUEOUS PRESSURIZED SPRAY

TO KILL FLEAS AND TICKS IN DOG AND CAT PREMISES: Thoroughly spray the animal's bedding and other resting areas until the surface is slightly moist. Treat the floor areas, cracks and crevices in the floor and along baseboards at the rate of two seconds per linear foot. Spray at a distance of 12 to 18 inches. Also spray the entire inside surface of doghouses. Repeat as necessary. For outdoor treatment of pet's living quarters, remove animals before spraying. Thoroughly spray the floor, cracks and crevices, and bedding until slightly moist. Repeat as necessary. For best results, dogs and cats should also be treated with an appropriate insecticide.

OUTDOORS-TO KILL FLYING INSECTS: Spray areas infested with *Mosquitoes, Gnats (Midges), House Flies, Horse Flies, Deer Flies and Flying Moths (Millers)*. Follow precautions listed above. Hold container 18 to 24 inches from shrubs, bushes and grassy areas. Spray these areas with a slow sweeping motion at the rate of from 1 to 3 seconds per cubic yard of space while moving away from the treated areas. To reduce annoyance from these flying insects, treat open porches and patios in a similar manner. Spray only when the air is still. Allow spray to dissipate before occupying the treated area. Repeat as necessary.

OUTDOORS-TO PROTECT ORNAMENTAL PLANTS: Kills *Aphids, Exposed Thrips, Leafhoppers, Plant Bugs, Japanese Beetles* on smaller rhododendrons, pines, spruce, hemlock, spirea, dogwood, palm, mimosa, toyon, viburnum, euonymus, oaks, maples, locust, forsythia and althea. Kills *Mimosa Webworm Larvae* on mimosa (spray directly on insects).

KILLS: *Aphids, Exposed Thrips, Adult Whiteflies, Leafhoppers, Plant Bugs, Spittlebugs and Japanese Beetles* on peonies, iris, zinnia, snapdragon, ageratum, chrysanthemums, nasturtiums, daisies, geraniums, marigolds, daphne, fatshedera, ivy, tobira, queen sago, broad-leaf acacia.

KILLS: *Aphids, Thrips, Leafhoppers, Plant Bugs, Japanese Beetles* on Ornamental Quince, Juniper, Cypress, Ornamental Mulberry, Ash, Cotoneaster, Rose, Camellia, Azalea, Pyracantha and Coenothus.

USE WITH EXTREME CAUTION-certain varieties have shown some leaf burn under certain conditions of use such as heavy dosage.

Spray directly on insects. Hold container 18 to 24 inches from the infested plants. Spray in short bursts of one to three seconds, or spray at the rate of one linear foot of growth per second. Direct spray to all sides covering foliage until slightly moist. Avoid heavy wetting. Repeat as necessary to obtain control.

INDOOR-TO PROTECT PLANTS: Kills *Aphids, Exposed Thrips, Adult Whiteflies* on African violets, philodendron, geraniums, begonias, coleus. Spray as directed above. Repeat as necessary to obtain control.

OUTDOORS-TO CONTROL NUISANCE PESTS: *Ants:* Spray trails, nests and points of entry. Spray on ants where possible. Repeat as necessary.

FLEAS: Same as directed for indoor use.

SPIDERS: Direct short bursts of spray on spiders and repeat as necessary.

WASPS: Application should be made in late evening when insects are at rest. Spray liberally into hiding and breeding places contacting as many insects as possible. Repeat as necessary.

TO KILL BEDBUGS AND LICE: Apply as a spot treatment to cracks and crevices around baseboards, floorboards, bedboards and walls. First, thoroughly clean and air mattresses and springs. Then spot treat only areas that may harbor pests, concentrating on tufts, folds and seams. Repeat as necessary. For persistent infestations, consult professional applicator.

INDOORS-FOR PROTECTION OF WOOLENS: Apply only to garments, blankets, carpets, and other woolen fabrics before placing in storage to kill larvae of *Webbing Clothes Moths and Black Carpet Beetles*.

Dry clean or wash garments and blankets before treating. Clean carpets, draperies and other fabrics by thoroughly brushing before treating.

Hold the container 14 to 18 inches from the fabric and apply the spray while moving evenly in a forward and back motion across the fabric while covering one foot per second. Spray the entire fabric surface until it is slightly moist or damp to the touch. When possible treat both sides of the fabric. Do not soak or wet fabric. For maximum protection place treated fabrics after drying in plastic or paper bags. Also treat cracks and crevices of closets, chests and trunks where these fabrics are being stored. Treat the cracks and crevices at the rate of two seconds per linear foot.

When applied as directed on fabric and in storage areas this treatment will offer protection for 6 months. To insure protection inspect the fabric in the storage area once every three months. Repeat application only when necessary. Avoid heavy applications. When possible make applications outdoors. If application is made indoors do not remain in treated areas. Ventilate the area after treatment is complete.

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.
