PRECAUTIONARY STATEMENTS

Hazards To Humans & Domestic Animals

CAUTION

Avoid breathing spray mist. Avoid contact with skin. Harmful if swallowed. Not for indoor use. While spraying for flying insects outdoors, hold container 4 to 6 feet away from plants and shrubs. Direct spray to fill the air around these plants without heavily wetting the plant foliage. Avoid smoking while spraying. Cover food before spraying. Do not spray on food crops. Direct spray away from people or animals. Allow spray to disperse for several minutes before entering the treated area.

Physical And Chemical Hazards

Contents under pressure. Do not puncture or incinerate container. Do not use or store near heat or open flame. Exposure to temperatures above 130°F may cause bursting. Never throw container into fire or incinerator.

Environmental Hazards

This pesticide is highly toxic to fish. Do not apply directly to water. Drift and runoff from treated sites may be hazardous to fish in adjacent waters. Do not contaminate water when disposing of equipment washwaters.

DIRECTIONS FOR USE

Spray outdoor areas of the yard, patio and camp ground when there is no breeze or spray in the direction of a slight breeze.

Control flies, mosquitoes and gnats up to 21 feet away, using this fog nozzle.

SHAKE WELL BEFORE USING

Shake well before using. Point spray nozzle away from face and in the direction of the space to be treated. Press down valve button and allow spray fog to fill the air where flying pests linger.

For larger areas, best results are obtained by spraying in the direction of a slight breeze that allows the fog to drift into the areas of infestation. Spray while moving away from treated areas. Allow spray to dissipate before occupying the treated area. Repeat as necessary.

FLYING INSECTS: Reduce annoyance from *Flies*, *Mosquitoes*, *Moths* and *Gnats* by directing spray from a distance of 4 to 6 feet away from flowering plants, shrubbery, and grass to where the insects may be resting. Avoid heavy wetting of plant foliage. Also spray around garbage cans and other breeding areas. Repeat as necessary. Spray directly on *Wasps* and *Hornets*. Thoroughly wet the nesting area during the evening when these insects are least active.

CRAWLING INSECTS: Spray directly on *Ants*, *Centipedes*, *Sowbugs*, and *Spiders*. Treat areas around garbage cans, picnic sites and camp grounds infested by these pests. Also thoroughly spray ant hills for best results. Spray in short bursts of 2 seconds at a 4

NET WEIGHT:

to 6 foot distance for control of *Brown Recluse Spider* and *Black Widow Spider*. Repeat application as necessary.

STORAGE & DISPOSAL

Storage: Keep in locked storage area.

Container Disposal: Replace cap and discard container in trash.

WARRANTY STATEMENT

Our recommendations for use of this product are based upon tests believed to be reliable. The use of this product being beyond the control of the manufacturer, no guarantee, expressed or implied is made as to the effects of such or the results to be obtained if not used in accordance with directions or established safe practice. The buyer must assume all responsibilities, including injury or damage, resulting from its misuse as such, or in combination with other materials.
