SBP-1382[®] LIQUID SPRAY 0.25%

A synthetic Pyrethroid for controlling the following household flying and crawling insects: Houseflies, Mosquitoes, Gnats, Roaches, Ants, Earwigs, Spiders, Grain Mites, Sowbugs, and Centipedes.

ACTIVE INGREDIENTS:

*†(5-Benzyl-3-furyl)methyl 2,2-dimethyl-3-(2-methylpropenyl)cyclopropanecarboxylate	0.250% w/w
Related compounds	0.034%
Aromatic petroleum hydrocarbons	0.331%
Petroleum distillate	99.975%
INERT INGREDIENTS:	0.010%
	100.000%

*Cis/trans isomers ratio: max. 30% (±) cis and min. 70% (±) trans.
†U.S. Patent No. 3,465,007

CAUTION: KEEP OUT OF REACH OF CHILDREN.

Harmful if swallowed. Do not get in eyes. Avoid breathing mist. Remove fish, birds and other pets from area to be sprayed. Extinguish open flame before space spraying. This formulation is combustible. **DO NOT USE, POUR, SPILL OR STORE NEAR HEAT OR OPEN FLAME.**

CONTAINER DISPOSAL - Do not reuse container. Crush used container and discard in a safe place or bury in non-cropland soil away from water.

Foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. When using the product in these areas, apply only when the facility is not in operation.

DIRECTIONS FOR USE

For use in hotels, motels, homes, institutions, packaging and processing plants, seed houses, and horse stables.

SPACE SPRAY - To kill flies, mosquitoes and gnats. Close room or area to be treated. Shut off air-conditioner and ventilator system. Seal all open vents. Cover all food handling surfaces and cover or remove all food. Remove fish and pets. Apply undiluted as a very fine mist space spray through manually operated equipment or with electrical and other powered applicators. Avoid staining by holding the spray nozzle at least five feet from objects. Direct the fine spray mist toward the upper corners of the room. Fill the room with a fine mist space spray, at the rate of 5 fluid ounces per 5,000 cubic feet. Leave room closed for one half hour. Ventilate thoroughly before re-entry. Sweep up and destroy fallen insects.

CONTACT SPRAYS - To kill roaches, ants, earwigs, grain mites, sowbugs, spiders and centipedes - Adjust spray to produce large wetting type spray particles. Direct spray to contact these insects in cracks and crevices in floors, baseboards, around pipes, behind cabinets, and other harbourages. Spray these infested areas until thoroughly wet. Repeat as necessary.

TO KILL SPIDERS - Spray directly on these pests and use repeated applications to the webbing and all cracks and crevices which harbor spiders.

TO KILL ANTS - Spray doors, window frames, ant trails and hills.

TO KILL GRAIN INSECTS - Adults of confused flour beetles, sawtoothed grain beetles, shiny spider beetles - Remove infested grain, cereal or flour and destroy. Avoid contamination of other food and foodstuffs in the area by removing before spraying. Spray directly on exposed stages and into cracks and crevices where grain insects may be hiding. In homes, dispose of all infested products. The shelves and drawers should be cleaned, thoroughly sprayed so as to contact all pests and covered with shelf paper after allowing shelves to dry. Any utensils that are contacted with spray should be washed before using. Repeat as necessary.
