PRECAUTIONARY STATEMENTS

Hazards To Humans & Domestic Animals

CAUTION

Harmful if swallowed. Avoid contamination of feed and food-stuffs. Remove pets, birds, and cover fish aquariums before spraying. Do not use on edible crops.

Environmental Hazards

This pesticide is highly toxic to fish. For terrestrial uses, do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Drift and runoff from treated sites may be hazardous to fish in adjacent waters. Do not contaminate water when disposing of equipment washwaters.

Physical And Chemical Hazards

Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 130°F may cause bursting. Never throw container into fire or incinerator.

DIRECTIONS FOR USE

Read and follow the directions of Federal Law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. **Storage:** Store in cool, locked storage area inaccessible to children, and away from heat, sparks or open flame. **Container Disposal:** Replace cap, wrap container in several layers of newspaper, and discard in trash.

SHAKE WELL BEFORE USING.

Shake well before each use. Remove protective cap. Aim spray opening away from person. Push button to spray.

CONTROL HOUSEHOLD PESTS

FOR HOUSE FLIES, MOSQUITOES, AND GNATS: Close all doors and windows. Point nozzle upward. Direct spray mist to all parts of the room, especially windows and other light sources which attract these insects. Fill the room with mist, then leave the treated area. Keep the room closed for at least 15 minutes. Ventilate the room when treatment is completed.

FOR CRAWLING INSECTS

ROACHES, EARWIGS, SOWBUGS, SPIDERS: Spray thoroughly into hiding places such as cracks, crevices, recessed areas, openings around pipes and sinks, under refrigerators, baseboards, and storage areas. Spray directly on insects where possible.

ANTS: Spray trails, nests and points of entry. Spray on ants where possible. Repeat as necessary.

ANIMAL PESTS

TO KILL FLEAS IN DOG AND CAT PREMISES:

Thoroughly spray the animal's bedding and other resting areas until the surface is slightly moist. Treat these areas at the rate of 2 seconds per linear foot at a distance of 12 to 18 inches. Also spray the entire inside surface of doghouses. Repeat as necessary, thoroughly spraying floor, cracks, crevices, and bedding.

SBP-1382®

many insects directly as possible. For best results, dogs and cats should also be treated with an appropriate insecticide.

OUTDOORS

TO REDUCE ANNOYANCE FROM FLYING INSECTS: Reduce *Mosquitoes, Gnats (Midges), House Flies, Biting Flies And Flying Moths (Millers)* by spraying their resting areas. Follow precautions listed above. Hold container 18 to 24 inches from shrubs, bushes, and grassy areas. Spray these areas with a slow sweeping motion at the rate of from 1 to 3 seconds per cubic yard of space while moving away from the treated areas. To reduce annoyance from these flying insects, treat open porches and patios in a similar manner. Spray only when the air is still. Allow spray to dissipate before occupying the treated area. Repeat as necessary.

OUTDOORS

TO PROTECT ORNAMENTAL PLANTS: To control *Aphids, Exposed Thrips, Adult Whiteflies, Leafhoppers And Two-spotted Mites* on smaller rhododendrons, pines, spruce, hemlock, spirea, dogwood, palm, mimosa, toyon, viburnum, euonymus, oaks, maples, locust, forsythia and althea, spray directly on insects. Hold container 18 inches from the infested plants. Spray in short bursts of one to three seconds or spray at the rate of one linear foot of growth per second. Direct spray to all sides covering foliage until slightly moist. Avoid heavy wetting. Repeat as necessary to obtain control.

Spray peonies, iris, zinnia, snapdragons, ageratums, chrysanthemums, nasturtiums, daisy, geraniums, marigolds, daphne, fat-shedera, ivy, tobira, queen sago and broad leaf acacia for control of aphids, exposed thrips, adult whiteflies and leafhoppers. Spray as directed above.

USE WITH CAUTION: on young tender foliage. Avoid heavy wetting. Plants such as flowering quince, ash and camellias may be subject to burn under certain conditions.

For *Adult Whiteflies, Two-spotted Mites And Mealybugs* be sure to direct spray to control these pests. Thoroughly cover the infested area. Use several repeat applications at two day intervals if necessary.

PROTECT HOUSE PLANTS: Spray infested African violets, philodendron, geraniums, begonias, coleus for listed pests. Leave the sprayed area when done indoors, and ventilate area after treatment is completed.

NUISANCE PESTS-ON OR ENTERING BUILDINGS:

WASPS: Applications should be made in late evening when insects are at rest. Spray liberally into hiding and breeding places, contacting as many insects as possible. Repeat as necessary. Spray directly on stray wasps that enter buildings.

ANTS: Spray trails, nests and points of entry. Spray on ants where possible. Repeat as necessary.

SPIDERS: Direct short burst of spray on spiders and repeat as necessary.

EARWIGS: Spray directly on earwigs in crevices and other hiding places, on outdoor porches, patio floor and doorway entrances.

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.
