The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable. A stamped copy is enclosed for your records.

As new labels are prepared:

1. For EPA Registration Nos. 432-584 and 432-581, revise the Statement of Practical Treatment for swallowing to qualify the professional staff referred to and eliminate the reference to solvents. There are no solvents in these pesticides.

2. For EPA Registration No. 432-585, revise the ENVIRONMENTAL HAZARD statement to fit the end-use directions approved for this pesticide. Previously approved text would still be acceptable. You have used a statement appropriate for a manufacturing-use product.
3. For EPA Registration No. 432-722, delete the last sentence under ENVIRONMENTAL HAZARD. It is not appropriate for a pressurized container.

For EPA Registration No. 432-541, please submit copies of bulletin TB-541 for the record. For EPA Registration No. 432-686, it is understood that you do not consider the manufacturing formula on the back of the label to be confidential information.

Sincerely yours,

Richard F. Mountfort
