

SBP-1382® AQUEOUS PRESSURIZED SPRAY INSECTICIDE 0.25%

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION

Harmful if swallowed or absorbed through skin. Avoid breathing vapors or spray mist. Avoid contact with skin and eyes. Do not apply directly to food. In commercial food handling facilities, cover or remove any food and food processing equipment during application. Do not apply while food processing is underway. After space spraying in meat packing plants, bakeries and other food processing plants, wash all equipment, benches, shelving, etc., where exposed food will be handled, with potable water. In the home, all food processing surfaces and utensils should be covered during treatment, or thoroughly washed before use.

Remove pets, birds and cover fish aquariums before spraying.

STATEMENT OF PRACTICAL TREATMENT

If in eyes or on skin: Immediately flush with plenty of water. For eyes, get medical attention.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes. When used on ships, do not wash or flush sprayed surfaces into adjacent waters.

PHYSICAL AND CHEMICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F (54.5°C) may cause bursting.

DISPOSAL

Do not reuse empty container. Wrap container and place in trash collection.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Shake well before each use. Remove protective cap. Aim spray opening away from person. Push button to spray.

Food should be removed or carefully covered before treatment. All food processing surfaces should be covered before treatment or thoroughly cleaned before using. In food processing plants apply only when plants are not in operation.

FOR INDOOR USE: In food areas of food handling establishments, commercial, industrial, office, residential, public, institutional and storage buildings, homes, hotels, ship cabins and hospitals. In hospitals patients should be removed prior to treatment. Also for use in buses, automobiles, and food areas of trucks, boxcars and ship cargo holds. Do not use on electrical equipment or on surfaces that can be harmed or stained by water. Also for use indoors in dog kennels and horse stables. In horse stables, not for application if horses will be used for food.

INDOORS - TO KILL CRAWLING INSECTS: Cockroaches, earwigs, grain mites, sowbugs, silverfish, spiders, scorpions, and centipedes: Spray thoroughly and frequently into hiding places such as cracks, crevices, moist areas, openings around pipes and sinks, under refrigerators, baseboards, door frames, bookcases, and storage areas. **SPRAY DIRECTLY ON INSECTS** where possible. Repeat as necessary.

TO KILL WASPS, HORNETS, YELLOW JACKETS, BEES: Application should be made late in the evening when insects are at rest. Spray liberally into hiding and breeding places, particularly under rafters, contacting as many insects as possible. Saturate areas in and around nest openings. Repeat as necessary.

OUTDOORS-TO CONTROL NUISANCE PESTS
ANTS: Spray trails, nest and points of entry. Spray on ants where possible. Repeat as necessary.

SPIDERS: Direct short bursts of spray on spiders and repeat as necessary.

SCORPIONS: Direct short bursts of spray on scorpions and repeat as necessary.

WASPS, HORNETS, YELLOW JACKETS, BEES: Same as directed for indoor use. Aim spray at nest openings in trees, bushes, under eaves, chimneys, cracks and crevices to saturate in and around the nest openings. Contact as many insects as possible. Repeat as necessary.

TO KILL TENT CATERPILLARS: Application should be made when caterpillars are young and tents are first noticed. For best results apply in the late afternoon or evening when caterpillars have returned to their tents. Aim spray directly at tents, and totally saturate on all sides. Repeat as necessary.
