**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

CAUTION

Harmful if swallowed. Avoid contact with eyes, skin or clothing. Wash hands after use. Cover or remove exposed foods. Avoid contamination of cooking utensils and food preparation surfaces. Do not spray animals. Remove pets, birds and cover aquariums before spraying. Do not use on food crops. In case of eye contact, flush eyes with plenty of water. Get medical attention if irritation persists.

ENVIRONMENTAL HAZARDS

Keep out of lakes, ponds or streams. Do not contaminate water by cleaning of equipment or disposal of wastes. When used on ships, do not wash or flush freshly sprayed surfaces into adjacent waters.

PHYSICAL AND CHEMICAL HAZARDS

Contents under pressure. Do not puncture. Do not use near heat or open flame. Exposure to temperatures above 130°F may cause bursting.

STORAGE AND DISPOSAL

Do not store near heat or open flame. Do not reuse empty container. Wrap container and put in trash collection. Never throw container into fire or incinerator.

WARRANTY STATEMENT

Our recommendations for use of this product are based upon tests believed to be reliable. The use of this product being beyond the control of the manufacturer, no guarantee, expressed or implied, is made as to the effects of such or the results to be obtained if not used in accordance with directions or established safe practice. The buyer must assume all responsibility, including injury or damage resulting from its misuse as such, or in combination with other materials.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Shake well before each use. Remove protective cap. Aim spray opening away from person. Push button to spray.

DOUBLE ACTION INSECT KILLER - This is a dual purpose formulation that can be used as a contact spray against wasps and crawling insects and as a residual insecticide providing up to 3 to 4 weeks control of roaches.

Do not use on edible crops. Do not use in edible products areas of food processing plants, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed.

FOR INDOOR USE: Can be used in home kitchens, and in non-food areas of food handling establishments, commercial, industrial, office, residential, public, institutional and storage buildings, homes, hotels, ship cabins and hospitals. In hospitals, patients should be removed prior to treatment. Also for use in buses, automobiles, and non-food areas of trucks, boxcars and ship cargo holds. Do not use on electrical equipment or on surfaces that can be harmed or stained by water. Also for use in dog kennels and horse stables. In horse stables, not for application if horses will be used for food.

TO KILL ROACHES, EARWIGS, GRAIN MITES, SOWBUGS, SCORPIONS, SPIDERS AND CENTIPEDES:

Contact Spray: Spray thoroughly into hiding places such as cracks, crevices, moist areas, openings around pipes and sinks, under refrigerators, baseboards, and storage areas. Spray directly on insects where possible. Repeat as necessary.

Residual Spray: Spray baseboards, cracks, crevices, around door and window frames, and other hiding places such as closets, in back of and under appliances, sinks cupboards in the kitchen and bathroom. In basements, spray hiding places in cracks and crevices, lower walls, dark places. Spray at the rate of 3 to 4 seconds per linear foot at a distance of 12 to 14 inches from the surface. Repeat as necessary.

TO KILL SPIDERS AND SCORPIONS: Direct short burst of spray on spiders and scorpions and repeat as necessary.

TO KILL WASPS: Applications should be made in the late evening when insects are at rest. Spray liberally into hiding and breeding places, contacting as many insects as possible. Repeat as necessary.

TO KILL ANTS: Apply to ant trails and around door sills, window frames and other places where ants may enter.

To kill tent caterpillars- Application should be made when caterpillars are young and tents are first noticed. For best results, apply in the late afternoon or evening, when caterpillars have returned to their tents. Aim spray directly at tents, and totally saturate on all sides. Repeat as necessary.
