### PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS CAUTION

Wash eyes or clothing thoroughly after handling. Harmful if swallowed or removed from eyes. Avoid contamination of cooking utensils and food surfaces. Remove pets and cover fish aquariums before using.

### FIRST AID

Wash with water for 15 minutes. Get medical attention if irritation persists.

**MEDICAL PRECAUTIONS:** Contents under pressure. Do not puncture. Do not heat or open flame. Exposure to temperatures above 130°F may cause container to burst. Never throw container into fire or incinerator.

### DIRECTIONS FOR USE

General: Do not use this product in a manner inconsistent with its label directions.

**Indoors:** In homes, hotels, motels, homes, greenhouses and latrines: food preparation areas, packaging and processing plants, seed houses, offices, institutional and storage buildings, dairies, milk processing plants, supermarkets, restaurants, bottling plants, dry cleaning, taverns, boats, ship cabins, and hospitals. Insects should be removed prior to treatment. Also for use in buses, campers and ship passenger holds. Also for use in dog kennels and feed stalls. Not for application if horses will be used for food. Pets should be removed or covered previous to treatment. All areas should be covered or thoroughly cleaned before using. Utility is not in operation.

### DISPOSAL

DO NOT REUSE EMPTY CONTAINER  
CONTAINER AND PUT IN TRASH  
COLLECTION

### DIRECTIONS FOR USE (Continued)

Remove protective cap. Aim spray opening away from person. Push button to spray.

**INDOORS:** To kill wasps, hornets, yellow jackets — Application should be made in late evening when insects are at rest. Spray liberally into hiding and breeding places, particularly in wall voids, contact areas, and protected areas. Saturate areas in and around nest openings. Repeat as necessary.

To kill spiders — Spray directly on these pests and use repeated applications to the webbing and air cracks and crevices which harbor spiders.

**OUTDOORS:** To kill wasps, hornets, yellow jackets — Application should be made in late evening when insects are at rest. Aim spray at nest openings and treat ducts — chimneys, cracks and crevices to saturate in and around nest openings. Contact as many insects as possible. Repeat as necessary.

To kill spiders — same as directed for indoor application.

To kill Tent Caterpillars — Application should be made when caterpillars are young and tents are first noticed. For best results apply in the late afternoon or evening when caterpillars have returned to their tents. Aim spray directly at tents, and totally saturate on all sides. Repeat as necessary.

### WARRANTY STATEMENT

Our representations for use of this product are based upon tests believed to be reliable. The user assumes full responsibility for the control of the pest and the guarantee expressed or implied. The user assumes full responsibility for the results of the application of this product with directions or restrictions. The user assumes full responsibility, including injury or damage resulting from its misuse as such, or in combination with other materials.
