

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS (AND DOMESTIC ANIMALS)

CAUTION

Harmful if swallowed. Avoid contact with eyes, skin or clothing. Avoid contamination of feed and foodstuffs. Remove pets, birds, and cover fish aquariums before spraying. Do not use on edible crops. Do not remain in treated areas. Ventilate the area when treatment is complete.

FIRST AID

In case of contact, immediately flush eyes and skin with plenty of water for at least 15 minutes. Get medical attention if irritation persists. If swallowed, do not induce vomiting. Call a physician at once.

ENVIRONMENTAL HAZARDS

Keep out of lakes, streams, or ponds. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment, or disposal of wastes.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

PROHIBITIONS: Do not contaminate water, food, or feed by storage or disposal. Open dumping is prohibited.

PESTICIDE DISPOSAL: Pesticide, spray mixture, or rinsate that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies.

CONTAINER DISPOSAL: Triple rinse (or equivalent) and offer for recycling, reconditioning, or disposal in approved landfill, or bury in a safe place. A container size of 30 gals. or more may be resealed and offered for reconditioning.

GENERAL: Consult federal, state or local disposal authorities for approved alternate procedures.

Do not use in edible product areas of food processing plants, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed. In the home, cover all food handling surfaces and cover or remove all food and cooking utensils.

For use in hotels, motels, homes, non-food areas of institutions, packaging and processing plants, seed houses, horse stables, industrial plants and outside around buildings and yards.

DIRECTIONS FOR USE (Continued from Left Panel)

INDOORS - TO KILL HOUSEFLIES, MOSQUITOES, AND GNATS: Apply as a space spray. Mix well before using. Fill spray tank with undiluted SBP-1382® 0.25% Transparent Emulsion Spray. Adjust pressure and nozzle to deliver a fine mist spray. Close all doors and windows. Point nozzle upward, direct the spray mist to all parts of the room, especially windows and other light sources which attract these insects. Keep the spray nozzle at all times at least four feet from fabrics to avoid wetting or staining. Fill the room with mist at the dosage of one fluid ounce per 1,000 cu. ft. of space. Then leave the treated area. Keep the room closed for at least 15 minutes. Ventilate the room when treatment is completed and before re-entry.

INDOORS - TO KILL CRAWLING INSECTS: Apply as a contact spray. Mix well before using. Fill spray tank with undiluted SBP-1382® 0.25% Transparent Emulsion Spray. Keep spray nozzle about 8 to 12 inches from surface to be treated. Adjust pressure and nozzle to deliver a coarse spray with particle size larger than that of the average aerosol. When possible, spray directly on roaches, earwigs, grain mites, sowbugs, spiders and centipedes to reduce infestations. Spray thoroughly into hiding places such as cracks, crevices, moist areas, openings around pipes and sinks, under refrigerators, baseboards, and storage areas. Apply spray until area is moist, but not to the point of run-off. Spray directly on insects where possible. Repeat as necessary.

TO KILL ANTS INDOORS OR TO CONTROL ANTS OUTDOORS: Spray trails, nests and points of entry. Spray on ants where possible. Repeat as necessary.

TO KILL FLEAS INDOORS OR TO CONTROL FLEAS OUTDOORS: Protect dogs and cats from fleas by spraying their resting areas. Hold spray nozzle about 18 inches from area to be treated. Apply spray at the rate of two seconds per linear foot. Direct spray on resting areas and floor around these areas. Treat bedding the same way. Also spray entire inside surface of dog houses. Repeat as necessary.

Also treat dogs and cats with a registered product before they re-enter the area just treated with this product.

OUTDOORS - TO CONTROL NUISANCE PESTS: Apply as a coarse contact spray. Spray directly on insects.

OUTDOORS - TO KILL SPIDERS: Direct short burst of spray on spiders and repeat as necessary.

OUTDOORS - TO KILL WASPS: Application should be made in late evening when insects are at rest. Spray liberally into hiding and breeding places contacting as many insects as possible. Repeat as necessary.

WARRANTY STATEMENT

Our recommendations for use of this product are based upon tests believed to be reliable. The use of this product being beyond the control of the manufacturer, no guarantee, expressed or implied, is made as to the effects of such or the results to be obtained if not used in accordance with directions or established safe practice. The buyer must assume all responsibility, including injury or damage resulting from its misuse as such, or in combination with other materials.
