

PRECAUTIONARY STATEMENTS

Hazards to Humans (and Domestic Animals)

CAUTION

Avoid contact with eyes, skin or clothing. Harmful if swallowed. Cover or remove exposed foods. Avoid contamination of cooking utensils and food preparation surfaces. Remove pets, birds and cover fish aquariums before spraying. Do not use on edible crops.

FIRST AID:

FIRST AID:
In case of contact, immediately flush eyes and skin with plenty of water for at least 15 minutes. Get medical attention if irritation persists. If swallowed, do not induce vomiting. Call a physician at once.

ENVIRONMENTAL HAZARDS:

ENVIRONMENTAL HAZARDS: Keep out of lakes, streams, or ponds. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment or disposal of wastes.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

Do not store near heat or open flame. Do not reuse empty container. Wrap container and put in trash collection.

INDOORS: To kill houseflies, mosquitoes, gnats, flying moths (millers), fruit flies — Close all doors and windows. Keep sprayer 2 feet from indoor surfaces. Pointing sprayer upward, fill room with mist. Leave treated area closed at least 15 minutes. Ventilate room when treatment is completed.

To kill cockroaches, waterbugs, spiders, ants — spray directly on insects when possible. Spray thoroughly baseboards, cracks, crevices, and in back of and under appliances, sinks, and cupboards where these pests have harborages. For spiders — spray directly on these pests and use repeated applications to the webbing and all cracks and crevices which harbor spiders. To kill ants — Spray doors around window frames, ant trails and hills.

OUTDOORS AND INDOORS FOR ORNAMENTAL PLANTS — To kill aphids, climbing cutworms, Japanese beetles, leafhopper nymphs, red spider mites, thrips and whiteflies on certain ornamentals such as roses, gladioli, azalea, chrysanthemum, and on house plants. Spray shrubs, bushes and grassy areas while moving away from area. Spray with the breeze, allowing mist to drift into shrubbery and other places. As an area spray, mist porches, patios, picnic areas. Repeat as necessary. Avoid wetting — a light spray kills bugs effectively. Spray plants in short bursts only and when the temperature is below 90° F. Repeat as necessary in 7 day intervals. Use caution on young plants and new growth. Do not spray on food crops.

LIQUID HOUSE & GARDEN COMBINATION INSECTICIDE WITH SBP-1382®

FOR USE IN AND AROUND HOMES TO KILL: Houseflies, mosquitoes, gnats, flying moths (Millers), fruit flies, cockroaches, waterbugs, spiders, ants. On certain ornamental plants for control of aphids, climbing cutworms, Japanese beetles, leafhopper nymphs, red spider mites, thrips and whiteflies.

ACTIVE INGREDIENTS

• Residue: 1,1-(5-(phenylmethyl)-3-furanyl)methyl	2,2-dimethyl-
1-(2-methyl-1-propenyl)	
cyclopropanecarboxylate	0.080% w/w
Related Compounds	0.011%
Impurities	0.070%
• 1-(phenyl-3-oxobutyl) technical	0.070%
Petroleum distillate	0.080%
Aromatic petroleum distillate	0.199%
	99.47%

INLET INDEPENDENTS

100 0004

● **Chemical Abstracts**, 1987 • Half year of research from the code
to new comp., 1200 Walnut Street West, Philadelphia, N.J. 07061

*Equivalent to 0.016% butylcarbityl 8-propylpiperonyl ether and 0.004% related compounds.

KEEP OUT OF REACH OF CHILDREN
