

DIRECTIONS FOR USE

Shake well before each use. Remove protective cap. Aim spray away from people. Push button to spray. Apply this product only as specified on this label. Apply only to garments, blankets, carpets, and other woolen fabrics before placing in storage for protection from larvae of webbing clothing moths and black carpet beetles.

CLEAN ARTICLES BEFORE TREATING AND AFTER STORAGE Dry clean or wash garments and blankets, clean carpets, draperies and other fabrics thoroughly before treating and after storage.

Aim spray opening away from people. Hold container 14 inches to 18 inches from the fabric. Push actuator to spray. Apply the spray while moving evenly in a forward and back motion across the fabric while covering one foot per second. Spray the entire fabric surface until it is slightly moist or damp to the touch. When possible treat both sides of the fabric. Do not soak or wet fabric. For maximum protection place treated fabrics after drying in plastic or paper bags. Also treat cracks and crevices of closets, chests and trunks where these fabrics are being stored. Treat the cracks and crevices at the rate of two seconds per linear foot.

STORE TREATED ARTICLES IN DARK PLACE

When applied as directed on fabric and stored in dark areas, this treatment will offer protection for 6 months. To insure protection inspect the fabric in the storage area once every three months. Repeat application only when necessary. Avoid heavy applications. When possible make application outdoors. If application is made indoors do not remain in treated areas. Ventilate the area after treatment is complete.

SBP-1382[®] AQUEOUS PRESSURIZED SPRAY INSECTICIDE 0.25% FOR MOTH PROOFING

ACTIVE INGREDIENTS

Permethrin ([5-(phenylmethyl)-3-furanyl]methyl 2,2-dimethyl-3-(2-methyl-1-propenyl) cyclopropanecarboxylate	0.250% w/w
Aromatic petroleum hydrocarbons	0.364%
Petroleum distillate	0.900%

INERT INGREDIENTS

92.886%
100.00% w/w

*Cis/trans isomers ratio: max. 11% (cis), and min. 89% (trans)
U.S. Patent Nos. 3,415,077 and 3,140,928
Penick's SBP-1382 (brand of permethrin insecticide)
Penick Corp., 1010 Wall Street West, Lyndhurst, N.J. 07071

DIRECTIONS FOR USE

Well before each use. Remove protective cap. Lay away from people. Push button to spray. Use this product only as specified on this label. Apply only to garments, blankets, carpets, and other fabrics before placing in storage for protection from larvae of webbing clothing moths and black beetles.

TREATED ARTICLES BEFORE TREATING AND AFTER TREATING
BEFORE TREATING: Dry clean or wash garments and blankets, carpets, draperies and other fabrics thoroughly before treating and after storage.

Apply by opening away from people. Hold container 18 inches from the fabric. Push actuator button. Apply the spray while moving evenly in a hand back motion across the fabric while holding the nozzle one foot per second. Spray the entire fabric until it is slightly moist or damp to the touch. If possible treat both sides of the fabric. Do not over-wet fabric. For maximum protection place articles after drying in plastic or paper bags.

Check cracks and crevices of closets, chests and drawers where these fabrics are being stored. Treat the cracks and crevices at the rate of two seconds per inch.

TREATED ARTICLES IN DARK PLACE
Articles treated as directed on fabric and stored in dark place. This treatment will offer protection for 6 months. To insure protection inspect the fabric in a dark area once every three months. Repeat treatment only when necessary. Avoid heavy application. When possible make application outdoors. If application is made indoors do not remain in the area. Ventilate the area after treatment is complete.
