INERT INGREDIENTS: ........................................... 95.47%
TOTAL: 100.00%

*Equivalent to 1.50% (Butylcarbityl) (6-propy1piperonyl)ether and 0.40% related compounds.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS
CAUTION
Harmful if swallowed. Avoid contact with skin. Wash hands after use.

ENVIRONMENTAL HAZARDS
This pesticide is extremely toxic to fish. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high watermark. Runoff and drift from treated areas may be hazardous to aquatic organisms in adjacent sites. Do not contaminate water when disposing of washwaters.

PHYSICAL AND CHEMICAL HAZARDS
Keep container closed and away from heat or open flame.

MAKES A PLEASANT PINE SCENT

INSTRUCTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

LIST OF INSECTS CONTROLLED
Aphids, Thrips, Colorado Potato Beetle, and Mites such as European Red Mite, Two-spotted Spider Mites, and Clover Mite on FLOWERS, SHADE TREES AND ORNAMENTALS.

FOLIAR SPRAY: Mix 1 tablespoon (1/2 fl.oz.) of GARDEN SPRAY in each gallon of water for a general insect spray on FLOWERS, SHADE TREES, AND ORNAMENTALS around Homes, Estates, Parks and Institutions. When insects appear, direct spray to hit as many as possible and to thoroughly cover all plant surfaces, particularly the undersides of leaves. Repeat at weekly intervals or as needed.

PATIO SPRAY: To reduce the annoyance of mosquitoes and gnats on PATIOS around the home or around and in other recreational areas, apply as a solution of six tablespoons (three fl.oz.) of GARDEN SPRAY in each gallon of water. Use a fine mist to penetrate hiding and resting places such as grass, shrubs and ornamentals. Treat as large an area as possible surrounding the patio or grounds to be kept mosquito or gnat free. Repeat application as needed. Apply at the rate of two pints of GARDEN SPRAY per acre. Do not spray patio surfaces.

SPRAY and SPREADER-STICKER: Roussel Bio Corporation's GARDEN SPRAY may be used in combination with Methoxychlor, Carbaryl or Carbamate Fungicides as an aphicide and a spreader-sticker. Tank mix 1 tablespoon (1/2 fl.oz.) of GARDEN SPRAY per gallon of water with the normal concentrations of the pesticides. AGITATE WHILE USING.

STORAGE: Store product in original container in a locked storage area.
CONTAINER DISPOSAL: Do not reuse empty container. Wrap container and put in trash.

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.
