DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

EPA Est.: See Lot No. For Correlation
EPA Reg. No. 432-617 § 42545-MO-1 P-1/10/89
H 5905-AR-1 P 655-GA-1

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS
CAUTION**

Harmful if swallowed. Avoid contact with eyes, skin or clothing. Cover or remove exposed foods. Avoid contamination of cooking utensils and food preparation surfaces. Remove pets, birds and cover fish aquariums before spraying. Do not use on edible crops.

STATEMENT OF PRACTICAL TREATMENT

IN EYES: In case of contact, immediately flush eyes with plenty of water. Get medical attention if irritation persists.

ON SKIN: Wash with soap and water immediately. Get medical attention if irritation persists.

ENVIRONMENTAL HAZARDS: This pesticide is highly toxic to fish. Do not apply directly to water or wetlands (swamps, bogs, marshes, and potholes). Drift from treated areas may be hazardous to organisms in adjacent aquatic sites.

PHYSICAL AND CHEMICAL HAZARDS: Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F (54.5°C) may cause bursting.

STORAGE: Keep in locked storage area.
CONTAINER DISPOSAL: Replace cap and discard container in trash

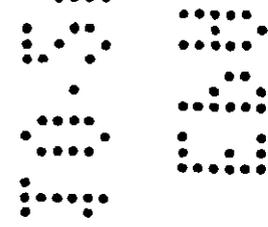

Shake well before using. Point spray nozzle away from face and in the direction of the space to be treated. Press down valve button and allow spray fog to fill the air where flying pests linger. For larger areas, best results are obtained by spraying in the direction of a slight breeze that allows the fog to drift into the areas of infestation. Spray while moving away from the treated area. Allow spray to dissipate before occupying the treated area. Repeat as necessary.

FLYING INSECTS: Reduce annoyance from house flies, mosquitoes, moths and gnats by directing spray from a distance of 4 to 6 feet (1.2 to 1.8 meters) from flowering plants, shrubbery, and grass to where insects may be resting. Avoid heavy wetting of plant foliage. Also spray around garbage cans and other breeding areas. Repeat as necessary. Spray directly on wasps and hornets. Thoroughly wet the nesting area during the evening when these insects are less active.

CRAWLING INSECTS: Spray directly on ants, centipedes, sowbugs, and spiders. Treat areas around garbage cans, picnic sites and camp grounds infested by these pests. Also thoroughly spray ant hills for best results. Repeat application as necessary.

WARRANTY STATEMENT

Our recommendations for the use of this product are based upon tests believed to be reliable. The use of this product being beyond the control of the manufacturer, no guarantee, expressed or implied, is made as to the effects of such or the results to be obtained if not used in accordance with directions or established safe practice. The buyer must assume all responsibility, including injury or damage, resulting from its misuse as such, or in combination with other materials.
