PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS
WARNING

May be fatal if swallowed. Harmful if absorbed through skin. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling and before eating or smoking.

STATEMENT OF PRACTICAL TREATMENT

If swallowed: Call a physician or Poison Control Center. Do not induce vomiting. This product contains aromatic petroleum solvent. Aspiration may be a hazard.

If on skin: Wash with plenty of soap and water. Get medical attention if irritation persists.

If in eyes: Flush with plenty of water. Get medical attention if irritation persists.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes.

PHYSICAL HAZARDS

Flammable. Do not use or store near heat or open flame. Flashpoint: minimum 55°F (13°C).

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE DISPOSAL: Pesticide, spray mixture or rinse water that cannot be used according to label instructions must be disposed of according to Federal or approved State procedures under the Resource Conservation and Recovery Act.

CONTAINER DISPOSAL: For containers one gallon and under: Do not use empty container. Wrap container and place in trash collection.

For containers over one gallon: Triple rinse (or equivalent). Then offer for recycling or re-conditioning, or puncture and dispose of in a sanitary landfill, or by other approved State and local procedures.

DIRECTIONS FOR USE (Continued on Reverse Side)

NOXFIRE™ INSECTICIDE with ROTENONE
Emulsifiable Concentrate 5% Fire Ant Drench
Formula II

EPA Reg. No. 432-677

E-30164-P

DIRECTIONS FOR USE (continued)

For use in lawns, gardens, grounds around buildings, fields, agricultural land, waste land, golf courses, recreational areas, campgrounds.

For control of an individual fire ant mound measuring 2-9 inches (5-25 cm) high and 7-21 inches (12-60 cm) in diameter, mix 1 tablespoon (14.6 ml) of Rotenone 5% EC in 2 gallons of water (7.57 L), and thoroughly agitate until completely mixed.

Apply this mixture to the undisturbed mound by first using some on the dome to soften the crust. Then use some to completely soak the perimeter. The remainder should be poured from a height of about 1 ft (1m) so as to break into the dome and allow the mixture to flow into the underground ant tunnels. Repeat in 7-10 days or as necessary. For larger mounds, apply greater volumes of diluted material.

WARRANTY STATEMENT

Our recommendations for use of this product are based upon tests believed to be reliable. The use of this product being beyond the control of the manufacturer, no guarantee, expressed or implied, is made as to the effects of such or the results to be obtained if not used in accordance with directions or established safe practice. The buyer must assume all responsibility, including injury or damage, resulting from its misuse as such, or in combination with other materials.

FOR DISTRIBUTION AND USE ONLY WITHIN CONNECTICUT

**NOXFIRE™ Insecticide
with Rotenone
Emulsifiable Concentrate 5%
Formula II**

EPA Reg. No. 432-677
EPA SLN No. CT-849002

IMPORTANT: This label must be in the possession of the user at the time of pesticide application.

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

All applicable directions, restrictions and precautions on the EPA registered label are to be followed.

DIRECTIONS FOR USE

To make a tank mix that will effectively combat the Colorado Potato Beetle, mix 82 fl. ozs. (0.25 lb active ingredient) of Noxfire and 8 fl. ozs. (0.5 lb active ingredient) of Piperonyl Butoxide 92% E.C. (EPA Reg. No. 432-673) with the volume of water desired to cover one acre.
For use on potatoes and eggplant.

Application should be made as late in the day as possible.
