OUTDOOR USE

Fire Ants

Mix 1 3/4 fluid ounces of Tracker 3.75% EC per one gallon of water. Mix and use at once. Apply as a gentle rain (using a sprinkling can or pump sprayer) thoroughly wetting top of mound and surrounding area to a diameter of 3 feet. Use approximately one pint per 10 - 12 inch mound. Do not disturb mound before treating. For best results, apply in cool weather or in early morning or late afternoon. Treat new mounds as they appear. Tracker 3.75% EC gives quick reduction of stinging fire ants with total mound kill in approximately 5 days. One gallon treats 8 - 10 mounds. Do not store spray mixture.

WARRANTY STATEMENT

Our recommendations for use of this product are based upon tests believed to be reliable. The use of this product being beyond the control of the manufacturer, no guarantee, expressed or implied is made as to the effects of such or the results to be obtained if not used in accordance with directions or established safe practice. The buyer must assume all responsibilities, including injury or damage, resulting from its misuse as such, or in combination with other materials.
