Finale Super Concentrate Weed, Grass and Brush Killer
EPA Reg. No. 432-954
September 12, 2002

NOTIFICATION
SEP 23 2002

Section II - Explanation

With this application, Aventis Environmental Science USA is submitting a Notification to modify the label of **Finale Super Concentrate Weed, Grass and Brush Killer, EPA Reg. No. 432-954**. In an earlier notification the precautionary word "Warning" on the front panel of the label was inadvertently changed to "Caution". In this notification we have corrected this error so that the enclosed label reflects the appropriate word "Warning" on the front panel. In addition we have abbreviated measurement designations in the Directions For Use section of the back panel. These additional minor text changes have been incorporated into the enclosed label in accordance with PR Notice 98-10, II, N "Other Revisions." One copy of the revised label, highlighted with the identified changes, is enclosed for the Agency files.

This notification is consistent with the provisions of PR Notice 97-5, PR Notice 98-10 and EPA regulations at 40 CFR 152.46. No other changes have been made to the labeling or the Confidential Statement of Formula of this product. I understand that it is a violation of 18 U.S.C. sec. 1001 to willfully make any false statement to the EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and Bayer Corporation may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

Enclosures: EPA Form 8570-1 and Revised label draft D-9750 091102

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING

Causes substantial but temporary eye injury. Harmful if swallowed or absorbed through skin. Do not get in eyes or on clothing. Avoid contact with skin. Wear protective eyewear (safety glasses). Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse. Do not allow children or pets to enter treated areas until the spray has dried.

ENVIRONMENTAL HAZARDS

Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters or rinsate.

For questions or comments, call toll-free 1-877-229-3724 or visit us online at www.BayerAdvanced.com

Read The Label First!

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Do not use or store near heat or open flame.

PRODUCT STORAGE: Store this product in its original container. Do not put concentrate or diluted product into food or drink containers. Store product in a secure storage area.

PRODUCT DISPOSAL: Partially filled bottle may be disposed of by securely wrapping original container in several layers of newspaper and discarding in trash. In case of spill or leak, soak up with paper towels and discard in trash.

CONTAINER DISPOSAL: Do not reuse empty bottle. Rinse thoroughly and wrap in several layers of newspaper before discarding in trash.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read the entire label before using this product and use only according to the label instructions. In California, this product is for homeowner use only.

Finale Super Concentrate is formulated for home use only for killing weeds, grass, brush and vines around trees, shrubs, fences, walks, patios, driveways, sidewalks, in flower beds, around houses, buildings, wooded lots, storage and recreational areas and to non-selectively spot kill weeds in lawns. This product is an all-purpose weed, grass, brush and vine killer **that will injure or kill all green vegetation contacted.** It will kill most annual and perennial weeds, grasses and other unwanted vegetation. Finale Super Concentrate will control or suppress the brush and vines listed on the label. Finale Super Concentrate will not interfere with seed germination or root growth of desirable plants. While treated areas can be reseeded or replanted immediately after the spray has dried, waiting at least 4 days after the application is recommended before reseeding, replanting, or disturbing the treated vegetation to ensure that the herbicide has had sufficient time to control the weeds.

To avoid spray drift onto desirable plants, do not spray during windy conditions. If spraying in areas adjacent to desirable plants, use a shield made of cardboard, plywood, or sheet metal while spraying to help prevent spray from contacting foliage of desirable plants. If spray contacts desirable plant foliage, immediately rinse the foliage with water. To avoid tracking product on to desirable vegetation, keep people and pets off treated areas until the spray is thoroughly dried.

HOW TO MIX AND APPLY

Mix 1½ fl. oz (3 TBS) to 4 fl. oz. (8 TBS) of Finale Super Concentrate per gallon of water to treat up to 1,000 square feet. Apply Finale Super Concentrate as a coarse spray with a pump-up or other type of hand-held sprayer. Fill the sprayer with water first and then measure and add the appropriate amount of this product. No agitation is needed. Thorough spray coverage of undesirable vegetation is necessary, but avoid spray run-off.

Target	fl. oz.* per gal. of water	TBS* per gal. of water
General and Annual Weed Control	1.5 to 3	3 to 6
Tough to Control Perennials, Brush, Vines, and Woody Plants	3 to 4	6 to 8

*Do not use measuring devices for any other use.

Repeat treatments may be necessary to control plants generating from underground parts or seed. Finale Super Concentrate works best in warm sunny weather with daytime temperatures above 60° F. Weed control may be reduced when applications are made to weeds under stress due to drought or cool temperatures. Always use the high rate of this product within the recommended range when weed growth is heavy, dense and when weeds are well established.

HOW TO CLEANUP

To cleanup after application, triple rinse the spray tank and flush all sprayer components with water to remove residues of this product. Empty rinse water on to bare soil or gravel. After thorough cleaning, equipment may be used to apply other products.

LAWN RENOVATION

Apply Finale Super Concentrate to renovate lawns containing grassy and broadleaf weeds. Best results are obtained when at least one mowing is skipped prior to treatment. This allows the spray to contact more leaf surface area. Thorough coverage of all existing vegetation is necessary. Wait until the treated weeds are dead before reseeding or replanting the area to ensure that Finale Super Concentrate has had sufficient time to control the weeds. Best results are obtained on mixed grasses and weeds when 4 fluid ounces (8 tablespoons) per gallon of water are used.

USE IN AND AROUND FLOWER AND ORNAMENTAL BEDS

Apply Finale Super Concentrate to control weeds growing in and around flowers, ornamentals, trees, and shrubs. Avoid spray contact of foliage and green bark of desirable plants. Once the weeds are dead, any adapted ornamental variety may be planted in the treated area.

TRIMMING AND EDGING

Apply Finale Super Concentrate to trim and edge around trees, shrubs, landscape beds, sidewalks, driveways, and sprinkler heads. A straight trimming edge can be obtained on turf species such as Ryegrasses, Bermudagrass, Bahiagrass, Kentucky Bluegrass, Fescues and St. Augustinegrass.

USE ON BRUSH AND VINE SPECIES

When applied as recommended, Finale Super Concentrate will provide control or suppression of the following brush and vine species. Mix 4 fluid ounces (8 tablespoons) per gallon of water and apply as a coarse spray with a pump-up or other type of hand-held sprayer.

- | | |
|------------------------|------------------|
| Blackberry, European | Oak |
| Cedar | Pine |
| Deer Brush | Poison Ivy |
| Douglas Fir | Poison Oak |
