Section II - Explanation

Bayer Corporation is submitting a **Notification** to add the claim "Kills down to the root" to the label for the above-mentioned product.

This notification is consistent with the provision of PR Notice 98-10 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

Read The Label First!

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PRODUCT STORAGE:

Store this product in its original container. Do not put concentrate or diluted product into food or drink containers. Store product in a secure storage area.

PRODUCT and CONTAINER DISPOSAL:

If empty: Do not reuse this container. Place in trash or offer recycling if available.
If partly filled: Call your local solid waste agency or 1-800-CLEANUP (1-800-253-2687) for disposal instructions. Never pour unused product down any indoor or outdoor drain.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read the entire label before using this product and use only according to the label instructions. In California, this product is for homeowner use only.

Finale Super Concentrate is formulated for home use only for killing weeds, grass, brush and vines around trees, shrubs, fences, walks, patios, driveways, sidewalks, in flower beds, around houses, buildings, wooded lots, storage and recreational areas and to non-selectively spot kill weeds in lawns. This product is an all-purpose weed, grass, brush and vine killer that will injure or kill all green vegetation contacted. It will kill most annual and perennial weeds, grasses and other unwanted vegetation. Finale Concentrate will control or suppress the brush and vines listed on the label. Finale Concentrate will not interfere with seed germination or root growth of desirable plants. While treated areas can be reseeded or replanted immediately after the spray has dried, waiting at least 4 days after application is recommended before reseeding, replanting, or disturbing the treated vegetation to ensure that the herbicide has had sufficient time to control the weeds.

To avoid spray drift onto desirable plants, do not spray during windy conditions. If spraying in areas adjacent to desirable plants, use a shield made of cardboard, plywood, or sheet metal while spraying to help prevent spray from contacting foliage of desirable plants. If spray contacts desirable plant foliage, immediately rinse the foliage with water. To avoid tracking product on to desirable vegetation, keep people and pets off treated areas until the spray is thoroughly dried.

HOW TO MIX AND APPLY

Mix 3 fl. oz. (6 TBS) to 8 fl. oz. (16 TBS) of Finale Concentrate per gallon of water to treat up to 1,000 square feet. Apply Finale Concentrate as a coarse spray with a pump-up or other type offhand-held sprayer. Fill the sprayer with water first and then measure and add the appropriate amount of this product. No agitation is needed. Thorough spray coverage of undesirable vegetation is necessary, but avoid spray run-off.

Target	fl. oz.*per gal. of water	TBS* per gal. of water
General and Annual Weed Control	3 to 6	6 to 12
Perennials, Brush, Vines, and Woody Plants	6 to 8	12 to 16

* Do not use measuring devices for any other use.

Repeat treatments may be necessary to control plants generating from underground parts or seed. Finale Concentrate works best in warm sunny weather with daytime temperatures above 60°F. Weed control may be reduced when applications are made to weeds under stress due to drought or cool temperatures. Always use the high rate of this product within the recommended range when weed growth is heavy, dense and when weeds are well established.

HOW TO CLEANUP

To cleanup after application, triple rinse the spray tank and flush all sprayer components with water to remove residues of this product. Empty rinse water on to bare soil or gravel. After through cleaning, equipment may be used to apply other products.

USE IN AND AROUND FLOWER AND ORNAMENTAL BEDS

Apply Finale Concentrate to control weeds growing in and around flowers, ornamentals, trees, and shrubs. Avoid spray contact of foliage and green bark of desirable plants. Once the weeds are dead, any adapted ornamental variety may be planted in the treated area.

TRIMMING AND EDGING

Apply Finale Concentrate to trim and edge around trees, shrubs, landscape beds, sidewalks, driveways and sprinkler heads. A straight trimming edge can be obtained on turf species such as: Ryegrasses, Bermudagrass, Bahiagrass, Kentucky Bluegrass, Fescues and St. Augustinegrass.

6/6

USE ON BRUSH AND VINE SPECIES

When applied as recommended, Finale Concentrate will provide control or suppression of the following brush and vine species. Mix 8 fl. oz. (16 TBS) per gallon of water and apply as a coarse spray with a pump-up or other type of hand-held sprayer.
