[flame graphic] **Highly Flammable Ingredient**
Ingrediente Altamente Inflamable

This product contains a highly flammable ingredient. It may cause a fire or explosion if not used properly. Follow the "Directions for Use" on this label very carefully.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

One 6 ounce aerosol can treats up to 6,000 cubic feet of unobstructed area (a room 30' x 25' with an 8 foot ceiling).

For **Fleas and Ticks**, use one 6 ounce can for every 6,000 cubic feet of room space.

HOW TO USE

Step 1: PREPARATION

Open cupboards, cabinets, trunks and doors to area to be treated to allow maximum kill in all areas where insects can hide and breed. Close outside doors and windows and shut off fans and air conditioning to maximize killing power of fog. Remove pets, birds and tightly cover or remove fish bowls and aquariums before spraying. Cover waxed wood floors and waxed furniture in the immediate area surrounding the fogger (newspaper may be used). Remove or cover exposed foods, dishes, utensils or food handling equipment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using.

DO NOT use more than one fogger per room. **DO NOT** use in small, enclosed spaces such as closets, cabinets or under counters or tables. Do not use in a room 5 ft. x 5 ft. or smaller; instead, allow fog to enter from other rooms. **Turn off ALL ignition sources such as pilot lights (shut off gas valves), other open flames or running electrical appliances that cycle off and on (i.e., refrigerators, thermostats, etc).** Call your gas utility or management company if you need assistance with your pilot lights.

Step 2: ACTIVATION OF FOGGER

SHAKE WELL JUST BEFORE USING. Place a section of newspaper on a level floor surface in center of room to be treated. **NOTE:** Do not place fogger on water-stainable surface. Tilt can opening away from face and depress tab firmly with thumb until it clicks in locked position. Aiming spray away from face, set fogger on newspaper, leave room and close door. After activation, leave room or house at once. Keep area closed for 2 hours (30 minutes for flying insects) before airing out. Open all doors and windows and allow to air for 30 minutes. Repeat spraying in two weeks or when necessary.
