NOTICE OF PESTICIDE:
 Registration
 Reregistration
(under FIFRA, as amended)

Name of Pesticide Product:
H&G 61743A Fipronil
Insecticide

Name and Address of Registrant (include ZIP Code)

Mr. Joseph Conti
Aventis Environmental Science USA LP
95 Chestnut Ridge Road
Montvale, NJ 07645

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(B), with an expiration date of May 18, 2006, provided that you:

1. Submit the following data, as set forth in the preacceptance letter dated July 3, 2001:
 - a. Water monitoring and expanded toxicity testing.
 - b. Data on the efficacy of buffers in mitigating fipronil runoff to surface water bodies.
 - c. Toxicity testing with parent fipronil using chironomus tentans.
2. Make the following label changes:
 - a. Modify the protective clothing statement as follows:
Wear long sleeved shirt and long pants and shoes plus socks when you apply this product.
 - b. You may include Arkansas in the list of states in which this product may be used.
 - c. Delete the following from the pesticide disposal statement:
Completely empty container. Then dispose of empty container.

Signature of Approving Official.

Marion J. Johnson, Jr.
Marion J. Johnson, Jr.
Product Manager 3
Insecticide Branch
Registration Division (7505C)

Date:

JUL 23 2001

- d. Delete "home lawns" from the fire ant use directions. This is misleading, since the use sites are spot or small area treatment outside the home and perimeter treatment.
 - e. The application rate of 16 fl.oz per 200-300 linear feet must be aligned with the perimeter treatment directions for use.
 - f. Delete from the directions for use the following, which detracts from the precautionary statements and the storage and disposal statements:
Wash hands after using and store in a safe place.
 - g. The directions "Do not spray above your head. Do not spray plants including vegetables, ornamentals, shrubs or trees" apply to both spot treatment and perimeter treatment.
3. The child resistant packaging certification and application for registration with the child resistant packaging section completely filled out have been included in the file jacket for this registration
 4. The basic (dated 10/13/98) and alternate (dated 8/2/99) confidential statements of formula dated are acceptable.
 5. Submit two copies of the final printed label for the record.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

H&G 61743A Fipronil Insecticide

2/6

READY TO USE INSECTICIDE SPRAY

- Contains Fipronil
- Ready to Use
- Easy and quick to apply

BREATH SPRAY. Keep away from treated area until spray has dried.

4/6

ENVIRONMENTAL HAZARDS

This pesticide is toxic to birds, fish, and aquatic invertebrates. Do not apply directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark. Runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. Do not apply within 15 feet of bodies of fresh water: lakes, reservoirs, rivers, permanent streams, marshes, natural ponds, and commercial fish ponds. A 15 foot buffer of uniform ground cover must exist between the application zone and bodies of fresh water (uniform ground cover is defined as land which supports vegetation of greater than 2 inches throughout).

Do not apply within 60 feet of estuarine bodies of water. Estuarine water bodies are brackish, tidal waters such as bays, mouths of rivers, salt marshes, and lagoons.

In Florida, do not use this product within a one-mile radius of scrub oak habitat which is home to the Florida scrub jay, the sand skink and the blue tail mole skink.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
Read entire label before using this product.

This product may only be used in the following states:

- | | | |
|------------|----------------|-----------|
| Alabama | Mississippi | Tennessee |
| California | New Mexico | Texas |
| Florida | North Carolina | |
| Georgia | Oklahoma | |
| Louisiana | South Carolina | |

STORAGE AND DISPOSAL

STORAGE

Store unused product in original container only, out of reach of children and animals. NEVER TRANSFER THIS PRODUCT TO ANOTHER CONTAINER FOR STORAGE.

PESTICIDE DISPOSAL

Containers may be disposed of by securely wrapping container in several layers of newspaper and discarding in trash. NEVER REUSE EMPTY CONTAINERS. Completely empty container. Then dispose of empty container.

Read the entire label first. If you do not understand any parts of the label, first call the Product Information Hotline [1-800-334-9745]. Use H&G 61743A Fipronil Insecticide only as described on this label.

How to use: Shake entire bottle [1 or 2 times] before using. Adjust spray to give desired spray pattern. Hold spray handle about 1-2 feet away from surface to spray and begin spraying. Spray ONLY as directed in use directions found below.

This insecticide is especially effective at very low doses, but may require 2-3 days to take maximum effect.

Wash hands after using and store in a safe place.

Application is limited to one application per year. Do not apply this product through any type of irrigation system. Do not apply to pastures or grazing lands.

The primary purpose of this product is for fire ant control.
