PROFESSIONAL INSECT CONTROL® ROACH BAIT STATIONS ROACH BAIT STATIONS

NOTIFICATION

MAR 14 2003

FOR USE IN COMMERCIAL, INDUSTRIAL AND RESIDENTIAL AREAS

ACTIVE INGREDIENT:

Fipronil* [5-amino-1-(2,6-dichloro-4-(trifluoromethyl) phenyl)-4-(1,R,S)-(trifluoromethyl) sulfinyl)-1H-pyrazole-3-carbonitrile].....	0.05%
Other Ingredients:	99.95%
TOTAL:	100.00%

CAS NO 120068-37-3

CONTAINS: 72 Child-Resistant Bait Stations

**KEEP OUT OF REACH OF CHILDREN
CAUTION: SEE PRECAUTIONS BELOW**

Fipronil kills insects by blocking the gaba regulated chloride channel (based on in-vitro binding data in rat brain preparations and insect electrophysiology studies).

This product contains Fipronil, (a [new] active ingredient) which kills roaches by ingestion. In the process of ingestion, fipronil (the active ingredient) acts by blocking the GABA (Gamma Amino Butyric Acid) receptor chloride channel. Once chloride ions cannot pass through the channel, depolarization ensues resulting in continued release of excitatory transmitters and hyperexcitation of the neuron.

This product may be used for the control of small cockroaches, such as German or Brown-Banded roaches, in any area where cockroaches are a problem, such as residential, warehousing and commercial establishments, including food service, food manufacturing and food processing facilities, hospitals, schools, daycare centers, nursing homes, health care facilities, laboratories, computer and electronic equipment facilities, pet shops, zoos, basements, buses, boats, trains and aircraft. The patented transparent red top enables you to monitor bait consumption while providing roaches their preferred environment, darkness, because roaches do not see light in the red spectrum. This product has an odorless bait that roaches eat even in the presence of other foods and is packaged in a child-resistant bait station.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

CAUTION: Wash thoroughly with soap and water after handling bait stations.

STORAGE AND DISPOSAL:

Do not contaminate water, food or feed by storage and disposal. **STORAGE:** Store in a cool dry area out of reach of children. **DISPOSAL:** Wrap bait stations in several layers of newspaper and discard in trash.

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

1. Place MAXFORCE® FC in areas where cockroaches have been seen and where they hide. Cockroaches infest dark, warm, damp locations.
2. The bait stations can be stuck to a vertical surface by peeling off the protective strip or expose adhesive.
3. For effective roach control use 4-6 bait stations per 100 square feet of horizontal surface area. Place adjacent to walls and flush in corners. Do not place more than 24 bait stations per residence. For outdoor use place stations adjacent to structure.
4. Do not spray the bait stations. Avoid placing the bait stations on freshly sprayed surfaces.
5. Roaches will begin eating the bait immediately and you should expect to see fewer roaches within 3 days.
6. Inspect all bait stations and replace as needed for continuous control of roaches.

RE: Submission of Alternate Brand Name Maxforce Roach Bait
F.05
EPA Reg. No. 432-1257

Dear Ms. Sibold:

Bayer Environmental Science is submitting a notification for an alternate brand name (ABN) for the product referenced above. Specifically we enclose the following:

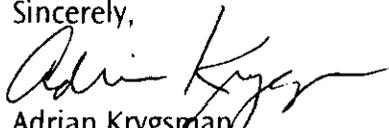

1. EPA Application form 8570-1 (OPP Identifier No. 288962)
2. Alternate Brand Name certification as required by PR Notice 98-10
3. Four (4) copies of product labeling with the alternate brand name

The alternate brand name (ABN) for this product is:

Maxforce FC Professional Insect Control Roach Bait Stations

Please contact me directly at the number indicated below or via email (Adrian.Krygsman@BayerCropscience.com) should there be additional questions regarding this submission.

Sincerely,

Adrian Krygsman

Notification of Additional Brand Name (ABN) per PR Notice 98-10:

Maxforce Roach Bait F.05

EPA Reg. No. 432-1257

Alternate Brand Name : Maxforce FC Professional Insect Control Roach Bait Stations

This notification is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.
