PROFESSIONAL INSECT CONTROL®

LARGE ROACH BAIT STATIONS

FOR USE IN COMMERCIAL, INDUSTRIAL AND RESIDENTIAL AREAS

ACTIVE INGREDIENT:

Fipronil [5-Amino-1-(2,6-dichloro-4-(trifluoromethyl) phenyl)-4-(1,R,S)-(trifluoromethyl) sulfinyl)-1H-pyrazole-3-carbonitrile]0.03%

INERT INGREDIENTS:99.97%

TOTAL:100.00%

CONTAINS: 48 Child-Resistant Bait Stations

**KEEP OUT OF REACH OF CHILDREN
CAUTION: SEE ADDITIONAL PRECAUTIONS BELOW**

This product contains Fipronil, an active ingredient which kills roaches by ingestion or contact. In the process of ingestion or contact, Fipronil (the active ingredient) acts by blocking the GABA (Gamma Amino Butyric Acid) receptor chloride channel.

This product is specially designed for large cockroaches, such as American and Oriental roaches, as well as waterbugs and palmetto bugs. It may be used indoors and outdoors (adjacent to structures or buildings) for the control of cockroaches in any structure where large cockroaches are a problem, such as residential, warehousing and commercial establishments, including food service, food manufacturing and food processing facilities, hospitals, schools, day care centers, nursing homes, health care facilities, laboratories, computer and electronic equipment facilities, pet shops, zoos, basements, buses, boats, trains, and aircraft.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS

CAUTION:

Wash thoroughly with soap and water after handling bait stations.

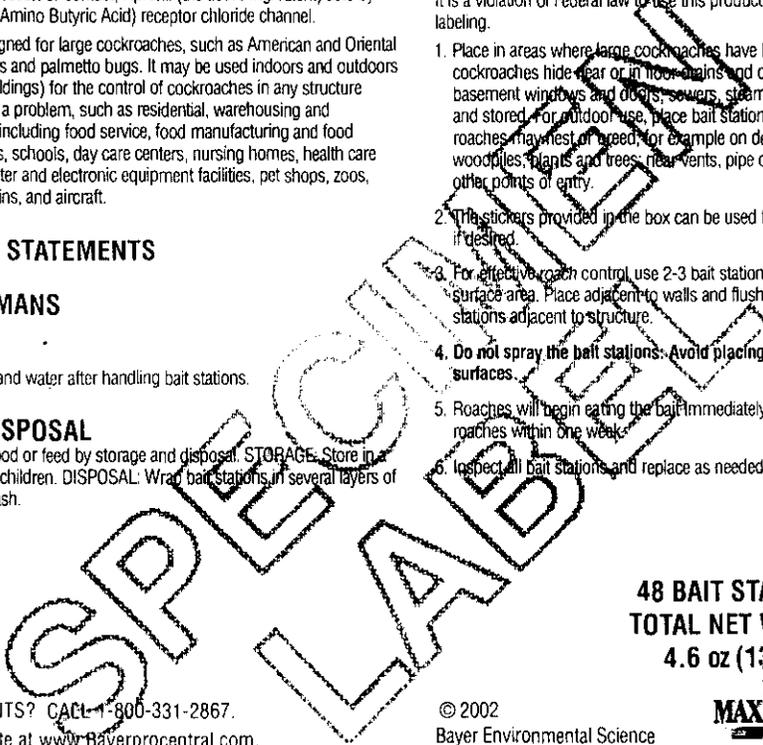

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal. **STORAGE:** Store in a cool dry area out of reach of children. **DISPOSAL:** Wrap bait stations in several layers of newspaper and discard in trash.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

1. Place in areas where large cockroaches have been seen and where they hide. Large cockroaches hide near or in floor drains and other exposed plumbing fixtures, near basement windows and doors, sewers, steam tunnels, and where food is prepared and stored. For outdoor use, place bait stations in areas adjacent to structures where roaches may nest or breed, for example on decks, stairs, and patios; around woodpiles, plants and trees; near vents, pipe chases, electrical conduits, windows, and other points of entry.
2. The stickers provided in the box can be used to attach bait stations to vertical surfaces if desired.
3. For effective roach control use 2-3 bait stations per 100 square feet of horizontal surface area. Place adjacent to walls and flush in corners. For outdoor use, place stations adjacent to structure.
4. **Do not spray the bait stations. Avoid placing the bait stations on freshly sprayed surfaces.**
5. Roaches will begin eating the bait immediately and you should expect to see fewer roaches within one week.
6. Inspect all Bait Stations and replace as needed for continual control of roaches.

**48 BAIT STATIONS
TOTAL NET WEIGHT
4.6 oz (132 g)**

MAXFORCE^{FC}

PROFESSIONAL INSECT CONTROL[®] LARGE ROACH BAIT STATIONS

Fipronil kills insects by blocking the GABA regulated CHLORIDE channel based on in-vitro binding data in rat brain preparations and insect electrophysiology studies.

This product contains Fipronil, [an active ingredient] which kills roaches by ingestion or contact. In the process of ingestion or contact, Fipronil (the active ingredient) acts by blocking the GABA (gamma-aminobutyric acid) receptor chloride channel. Once chloride ions cannot pass through the channel, depolarization ensues resulting in continued release of excitatory transmitters and hyperexcitation of the neuron.

This product is specially designed for large cockroaches, such as American and Oriental roaches, as well as waterbugs and palmetto bugs. It may be used indoors and outdoors (adjacent to structures or buildings) for the control of cockroaches in any structure where large cockroaches are a problem, such as residential, warehousing and commercial establishments, including food service, food manufacturing and food processing facilities, hospitals, schools, day care centers, nursing homes, health care facilities, laboratories, computer and electronic equipment facilities, pet shops, zoos, basements, buses, boats, trains, and aircraft.

DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

- [Break bait stations away from the plastic frame and] Place in areas where large cockroaches have been seen and where they hide. Large cockroaches hide near or in floor drains and other exposed plumbing fixtures, near basement windows and doors, sewers, steam tunnels, and where food is prepared and stored. For outdoor use, place bait stations in areas adjacent to structures where roaches may rest or breed, for example on decks, stairs, and patios; around woodpiles, plants and trees; near vents, pipe chases, electrical conduits, windows, and other points of entry.
-or-
- [Break bait stations away from the plastic frame and] Place in areas where cockroaches have been seen and where they hide. Cockroaches infest dark, warm, damp locations.
- The stickers provided in the box -or- bag can be used to attach bait stations to vertical surfaces if desired.
-or-
- The bait stations can be stuck to a vertical surface by peeling off the protective strip to expose adhesive.
- For effective roach control use 2-3 bait stations per 100 square feet of horizontal surface area. Place adjacent to walls and flush in corners. For outdoor use, place stations adjacent to structure.
- Do not spray the bait stations. Avoid placing the bait stations on freshly sprayed surfaces.
- Roaches will begin eating the bait immediately and you should expect to see fewer roaches [with] in a week or less -or- 3 [3-7] days -or- 1 week.
- Inspect all bait stations and replace as needed for continual control of roaches.

STORAGE AND DISPOSAL:

Do not contaminate water, food or feed by storage and disposal.

STORAGE: Store in a cool dry area out of reach of children.

DISPOSAL: Wrap bait stations in several layers of newspaper and discard in trash.

PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

CAUTION

Wash thoroughly with soap and water after handling bait stations.
