

SINGLES IN A RESEALABLE BAGTEAR HERE TO OPEN **MAXFORCE****LARGE ROACH BAIT F.03***for front or back:*

- Kills roaches quickly
- Starts killing within 2 days
- Quick kill formula
- Fast action formula
- Kills roaches within 2 days
- A significant reduction will be apparent within 3 days/ 5 days/1 week
- Starts killing roaches in hours
- Significantly reduces visible roaches within 3 days/ 5 days/1 week
- Kills the source of the roach problem
- Lets roaches kill roaches
- Kills roaches where they hide/breed/live
- Effectively kills roaches without a trace - no fumes, no mess, no odor
- Ideal for kitchen use
- Hands off way to get rid of roaches
- Easy to use; nothing to activate.
- No vapors, no fumes, no mess, no odor
- The clean way to kill roaches, no clean-up
- Guaranteed to kill roaches
- Guaranteed day and night roach control
- Guaranteed to rid your home of roaches
- Guaranteed to protect your home from roaches
- Guaranteed to solve your roach problem
- Satisfaction -or- Quality Guaranteed
- Kills roaches where you can't find them
- Kills roaches - so you don't see them
- Kills two ways - Kills by ingestion and/or by contact
- Kills by ingestion and/or by contact
- Kills by ingestion and/or by contact
- Double action formula - Kills by ingestion and/or by contact
- Kills roaches you don't see
- Kills roaches you see and (even) those you don't for complete protection
- See dead roaches in 48 hours
- See dead roaches in (2-3) days
- Powerful results in just (2-3) days
- You should see results within (2-3) days
- See [visible] results within -or- in 48 hours
- 48 hour kill -or- action
- Fast acting -or- action formula
- Fast acting -or- action formula that quickly kills roaches
- Effective performance
- [Delivers] fast killing results
- Provides maximum roach control
- Starts working within hours and continues working
- Kills roaches fast before they multiply for long-term control
- Continuous action for (a)round the clock protection
- Works every minute of every hour of every day
- Works continuously, (24 hours a day,) (7 days a week)
- Works day after day/ works day and night
- Kills roaches before they become a problem
- Preventative maintenance against roaches
- Keeps roaches out of sight
- Stops roaches before they become a problem
- Protects -or- defends your home against roaches
- Patented (action) formula -or- ingredient
- Special formula
- Contains an insecticide ingredient to kill roaches
- Protect your home from roaches
- For a clean roach free home
- Rids your home of roaches
- Gets rid of roaches (in your home)
- Kills large roaches and Palmetto bugs
- Kills (roaches) by contact (while you sleep)
- Kills roaches when you can't
- Destroys (kills) (roaches) by contact or ingestion
- Kills on contact 24 hours a day, 7 days a week
- Patented action contact kill
- Kills by touch
- Destroys roaches just by touching
- The lethal roach killer
- 2-in-1 Formula - Kills by ingestion and/or by contact.
- Ultimate roach control formula
- Virtually eliminates roaches
- Kills by ingestion and/or by contact

FOR USE IN COMMERCIAL, INDUSTRIAL AND RESIDENTIAL AREAS

ACTIVE INGREDIENT: Fipronil (5-Amino-1-(2,6-dichloro-4-(trifluoromethyl)phenyl)-4-(1,1,1-trifluoroethyl)sulfonyl)-1H-pyrazole-3-carbonitrile) 0.03%

OTHER INGREDIENTS: 99.97%

KEEP OUT OF REACH OF CHILDREN

CAUTION:

(See Precautions on Side -or- Back Panel.)

*for carton only:*

(The paperboard in this)
(carton) (contains) (is made
from) _____ % recycled fiber
(minimum _____ %
post-consumer content).

Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 432-1258

ACCEPTED

OCT - 7 2005

**LARGE STATIONS**

CONTAINS 48 CHILE RESISTANT BAIT STATIONS

TOTAL NET WT 4.6 oz. (132 g.)

NET WT PER UNIT 0.1 oz. (275 g.)

MAXFORCE

LARGE ROACH BAIT F.03

Flupronil kills insects by blocking the GABA regulated CHLORIDE channel based on in-vitro binding data in rat brain preparations and insect electrophysiology studies.

This product contains Flupronil, [an active ingredient] which kills roaches by ingestion or contact. In the process of ingestion or contact, Flupronil (the active ingredient) acts by blocking the GABA (gamma-aminobutyric acid) receptor chloride channel. Once chloride ions cannot pass through the channel, depolarization ensues resulting in continued release of excitatory transmitters and hyperexcitation of the neuron.

This product is specially designed for large cockroaches, such as American and Oriental roaches, as well as waterbugs and palmetto bugs. It may be used indoors and outdoors (adjacent to structures or buildings) for the control of cockroaches in any structure where large cockroaches are a problem, such as residential, warehousing and commercial establishments, including food service, food manufacturing and food processing facilities, hospitals, schools, day care centers, nursing homes, health care facilities, laboratories, computer and electronic equipment facilities, pet shops, zoos, basements, buses, boats, trains, and aircraft.

DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

1. [Break bait stations away from the plastic frame and] Place in areas where large cockroaches have been seen and where they hide. Large cockroaches hide near or in floor drains and other exposed plumbing fixtures, near basement windows and doors, sewers, steam tunnels, and where food is prepared and stored. For outdoor use, place bait stations in areas adjacent to structures where roaches may rest or breed, for example on decks, stairs, and patios; around woodpiles, plants and trees; near vents, pipe chases, electrical conduits, windows, and other points of entry.
-or-
1. [Break bait stations away from the plastic frame and] Place in areas where cockroaches have been seen and where they hide. Cockroaches infest dark, warm, damp locations.
2. The stickers provided in the box -or- bag can be used to attach bait stations to vertical surfaces if desired.
-or-
2. The bait stations can be stuck to a vertical surface by peeling off the protective strip to expose adhesive.
3. For effective roach control use 2-3 bait stations per 100 square feet of horizontal surface area. Place adjacent to walls and flush in corners. For outdoor use, place stations adjacent to structure.
4. Do not spray the bait stations. Avoid placing the bait stations on freshly sprayed surfaces.
6. Roaches will begin eating the bait immediately and you should expect to see fewer roaches [with] in a week or less -or- 3 [3-7] days -or- 1 week.
6. Inspect all bait stations and replace as needed for continual control of roaches.

STORAGE AND DISPOSAL:

Do not contaminate water, food or feed by storage and disposal.

STORAGE: Store in a cool dry area out of reach of children.

DISPOSAL: Wrap bait stations in several layers of newspaper and discard in trash.

PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

CAUTION

Wash thoroughly with soap and water after handling bait stations.
