## NOTICE OF PESTICIDE:

Registration  
 Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Bayer Environmental Science  
95 Chestnut Ridge Road  
Montvale, NJ 07645

**Note:** Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA sec. 3(c)(5). Once a pesticide is registered, however, it is not regarded as permanently acceptable. Registration does not eliminate the need for continual reassessment of pesticides. If the Agency determines that, at any time, additional data are required to maintain in effect an existing registration, the Agency will require submission of such data under FIFRA section (3).

1. Revise the EPA Registration Number to read "EPA Reg. No.432-1278".
2. Move the statement "Have the product container or label with you when calling a poison control center or doctor or going for treatment" to a position above the "NOTE TO PHYSICIAN". It is currently imbedded in the "NOTE TO PHYSICIAN". Since this statement is intended for users seeking medical advice (not physicians), it should not be included in the "NOTE TO PHYSICIAN".
3. The "STORAGE & DISPOSAL" instructions are imbedded in the paragraph beginning "This manufacturing use product may be used only for the formulation ...". Move them out of this paragraph to a position near the beginning or end of the "DIRECTIONS FOR USE", in accordance with the Label Review Manual.
4. Revise the respirator requirement under Hazards to Humans and Domestic Animals in accordance with the guidance in PR Notice 98-9 (Modification of Respirator Statements for Pesticide Product Labels)
