OFFICE OF PREVENTION, PESTICIDES AND TOXIC SUBSTANCES

SEP 9 2009

Mr. Richard M. Gorrell Product Registration Bayer Environmental Science 2T.W Alexander Drive Research Triangle Park, NC 27709

Subject: Label Notification for Pesticide Registration Notice 2007-4

(Storage & Disposal Changes)

Dear Registrant:

The Agency is in receipt of your Application(s) for Pesticide Notification under Pesticide Registration Notice (PRN) 2007-4 dated August 7, 2009 for:

EPA Registration 432-1468 "Ronstar 1% Plus Turf Fertilizer"

The Registration Division (RD) has conducted a review of this request for applicability under PRN 2007-4 and finds that the label change(s) requested falls within the scope of PRN-2007-4. The label has been date-stamped "Notification" and will be placed in our records.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on nonrefillable containers. The code may appear either on the label (and can be added by non-notification/PR Notice 98-10) or durably marked on the container itself.

If you have any questions, please contact me directly at 703-305-6249 or Owen F. Beeder of my staff at 703-308-8899.

Sincerely,

Linda Arrington

RE:

Ronstar 1% Plus Turf Fertilizer Herbicide (EPA Reg No. 432-1468) Notification to Add Container Disposal Statement

Dear Ms. Arrington:

Bayer Environmental Science (BES) is notifying the Agency of the addition of a revised container disposal statement for the Ronstar 1% Plus Turf Fertilizer Herbicide label. The label language is exactly as prescribed by the Agency in PR Notice 2007-4.

Bayer Environmental Science 2 T.W. Alexander Drive RTP, NC 27709 Phone: 919.549.2000

The following information is included with this amendment:

- 8570-1 form
- Revised Label (4 paper copies; one highlighted copy)

If you have any questions, contact me at (919) 549-2423 or email me at mike.gorrell@bayercropscience.com.

Sincerely,

Richard M. Gorrell Manager, Registrations

RONSTAR® 1.0% PLUS TURF FERTILIZER

Herbicide

NOT FOR USE ON HOME LAWNS NOT FOR SALE TO OR USE BY HOMEOWNERS/CONSUMERS

FOR SALE TO, AND USE BY PROFESSIONAL APPLICATORS ONLY.

Selective, preemergent herbicide for the control of annual grasses and broadleaf weeds in Turf and woody Ornamental shrubs, vines, and trees.

ACTIVE INGREDIENT:

EPA Reg. No. 432-1468

EPA Est. No. 33560-TN-1

KEEP OUT OF REACH OF CHILDRENOTIFICATION WARNING AVISO SEP - 8 2009

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle. (If you do not understand the label, find someone to explain it to you in detail.)

For MEDICAL and TRANSPORTATION Emergencies ONLY Call 24 Hours A Day 1-800-334-7577
For PRODUCT USE Information Call 1-800-334-9745

FIRST AID

If swallowed:	Call a poison control center or doctor immediately for treatment advice.
	Have person sip a glass of water if able to swallow.
	Do not induce vomiting unless told to do so by a poison control center or doctor.
If in eyes:	 Hold eyes open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.
	Call a poison control center or doctor for treatment advice.
If on skin:	Take off contaminated clothing.
	Rinse skin immediately with plenty of water for 15-20 minutes.
	Call a poison control center or doctor for treatment advice.
If inhaled:	Move person to fresh air.
	• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.
	Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment.

PRECAUTIONARY STATEMENTS

WARNING

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Causes skin irritation. Harmful if absorbed through skin. Harmful if inhaled. Do not get on skin or on clothing. Avoid contact with eyes. Causes moderate eye irritation. Avoid breathing dust. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Loaders, applicators and other handlers must wear long-sleeved shirt and long pants, shoes plus socks. Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

User Safety Recommendations

Users should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not contaminate water by cleaning of equipment or disposal of wastes. RONSTAR® should not be used in areas where irrigation or rainfall results in the direct or indirect (via ditches and canals) contamination of surface waters through dissolved runoff or erosion of soil particles to which oxadiazon is absorbed.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Read entire label before using this product.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE) and restricted-entry intervals. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 12 hours.

PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water, is coveralls, shoes plus socks, and chemical-resistant gloves made of any waterproof material.

Do not apply RONSTAR® 1.0% Plus Turf Fertilizer Herbicide through any type of irrigation system.

STORAGE AND DISPOSAL

STORAGE

Do not contaminate water, food or feed by storage or disposal. Do not store in or around the home.

PESTICIDE DISPOSAL

Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL

Non-refillable container. Do not reuse or refill this container. Completely empty bag into application equipment. Then dispose of empty bag in a sanitary land fill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

GENERAL INFORMATION

RONSTAR® 1.0% Plus Turf Fertilizer Herbicide is a selective, preemergent herbicide for control of many annual grasses and broadleaf weeds in turf and on a wide variety of woody ornamental shrubs, vines, and trees. RONSTAR® 1.0% Plus Turf Fertilizer_Herbicide controls weeds by killing the young weed seedlings as they come in contact with the herbicide during germination.

Apply RONSTAR® 1.0% Plus Turf Fertilizer Herbicide with a properly calibrated granular applicator that will apply the granules uniformly (uniform application is essential for satisfactory weed control). Calibrate the applicator prior to use, according to the manufacturer's directions, and check frequently during the application to be certain that the equipment is working properly.

Do not allow domestic animals to graze treated areas. Avoid contamination of water intended for irrigation and domestic use.

The maximum application rate allowed per year is 600 pounds of product per acre per year (equivalent to 6 pounds ai/A/year), except in areas where there is heavy weed infestation. In areas of heavy weed infestation, the maximum application rate is 800 pounds of product per acre per year (equivalent to 8 pounds ai/A/year). A single application rate of 400 pound of product per acre (equivalent to 4 pounds ai/A). Subsequent applications can be made 4 months after the previous treatment.

Not for use on home lawns. For best results, water-in product as soon as practical after application.

TURF

For use in established perennial Bluegrass, Bentgrass, Bermudagrass, Buffalograss, Perennial Ryegrass, St. Augustinegrass, Seashore Paspalum, Tall Fescue, and Zoysia turf; such as, fairways, parks, golf courses, and lawns. Rake turf area free of leaves, mowing if necessary, so granules reach soil surface. Measure area to be treated and uniformly apply required amount, using a fertilizer spreader. Cross-treating with one-half required amount in each direction will give best results. **Do not** apply to wet turf. If rain is not expected shortly after application, irrigating turf thoroughly will increase effectiveness.

PREEMERGENT WEED CONTROL

	AMOUNT OF RONSTAR® 1.0% PLUS TURF FERTILIZER Herbicide		
WEEDS CONTROLLED	PER ACRE	PER 1000 SQ. FT.	DIRECTIONS
Crabgrass (<i>Digitaria spp.</i>) Goosegrass (<i>Eleusine indica</i>) Field Sandbur (<i>Cenchus incertus</i>) Annual Sedge (<i>Cyperus compressus</i>)	200 - 400 lbs.	4.5 - 9 lbs.	Apply in late winter or early spring prior to seed germination. Application made after March or April may not be fully effective.
Annual Bluegrass (Poa Annua spp.) (See note below)	200-400 lbs.	4.5 - 9 lbs	Apply in late summer to early fall prior to seed germination.
Virginia Buttonweed (<i>Diodia virginiana</i>) Pigweed (<i>Amaranthus spp.</i>) Florida Pusley (<i>Richardia scabra</i>) Oxalis (<i>Oxalis spp.</i>) Stinging Nettle (<i>Urtica dioica</i>) Carpetgrass (<i>Axonapus offinis</i>)	400 lbs.	9 lbş.	Apply in early spring prior to seed germination.

FALL APPLICATION FOR SPRING WEED CONTROL IN COOL SEASON TURF

	AMOUNT OF RONSTAR® 1.0% PLUS TURF FERTILIZER Herbicide		
WEEDS CONTROLLED	PER ACRE	PER 1000 SQ. FT.	DIRECTIONS
Crabgrass, Goosegrass and other annual weeds	300 - 400 lbs.	6.76 – 9 lbs.	For use in Bluegrass, Bentgrass, Perennial Ryegrass and Tall Fescue turf. Make application in the fall after turf has become dormant. For late, fall applications, seeding into treated areas should be delayed until 4 months after greenup.

ANNUAL BLUEGRASS CONTROL IN BERMUDAGRASS FAIRWAYS OVERSEEDED WITH PERENNIAL RYEGRASS ONLY

	RONSTAR® 1.	JNT OF 0% PLUS TURF R Herbicide	
WEEDS CONTROLLED	PER ACRE	PER 1000 SQ. FT.	DIRECTIONS
Annual Bluegrass (<i>Poa annua spp.</i>) See Note below	200 lbs	4.5 lbs.	Apply in late summer to early fall prior to Poa annua spp. seed germination. Any Poa annua spp. established when this product is applied will not be controlled. RONSTAR® 1.0% Plus Turf Fertilizer will only control the Poa annua spp. that is established from seed every year. RONSTAR® 1.0% Plus Turf Fertilizer Herbicide should be applied no closer than 60 days prior to overseeding. NOTE: Do not use where Poa trivialis is present in overseed mix.

NOTE: In many areas, annual bluegrass exists as at least two biotypes or subspecies of *Poa annua*. The true annual biotype is *Poa annua* spp. annua which germinates every year from seed, while the biotype that behaves like a perennial is *Poa annua* spp. reptans.

This perennial biotype can survive through the summer and established plants will not be controlled by this product. Consult the extension service or University weed specialists in your area for more information

ANNUAL WEED CONTROL DURING BERMUDAGRASS, ZOYSIAGRASS, SEASHORE PASPALUM, AND TROPIC LALO (Paspalum Hieronymii) ESTABLISHMENT FROM SPRIGS

	AMOUNT OF RONSTAR® 1.0% PLUS TURF FERTILIZER Herbicide		
WEEDS CONTROLLED	PER ACRE	PER 1000 SQ. FT.	DIRECTIONS
Crabgrass, Goosegrass, Annual Sedge, and other annual weeds	200 to300 lbs.	4.5 to 6.76 lbs.	For Bermudagrass, make application immediately prior to or immediately after sprigging. For Seashore Paspalum, make application 10 to 14 days after sprigging. Applications made close to the time of sprigging may cause objectionable Seashore Paspalum injury. Disturbance of the soil surface after RONSTAR® 1.0% Plus Turf Fertilizer Herbicide application may disrupt the herbicide barrier and reduce effectiveness. Irrigate immediately after application for best results.

For St. Augustinegrass and Bentgrass turf, do not exceed the rate of 300 pounds per acre (3 pounds active ingredient) of RONSTAR® 1.0% Plus Turf Fertilizer Herbicide. Do not apply to Bentgrass turf mowed at less than 3/8 inch.

RONSTAR® 1.0% Plus Turf Fertilizer Herbicide may cause discoloration of Bentgrass, Bermudagrass and St. Augustinegrass. This discoloration is temporary and normally outgrown within 2 to 3 weeks.

Avoid contact with flowers and shrubs except as recommended elsewhere on this label. Do not apply RONSTAR® 1.0% Plus Turf Fertilizer Herbicide to newly seeded areas. Seeding into treated areas should be delayed until 4 months after treatment except as noted above. Do not apply to Dichondra or Centipedegrass. RONSTAR® 1.0% Plus Turf Fertilizer Herbicide should not be used on putting greens or tees because of the varying cultural practices used.

When making applications to Tropic Lalo, applications must be made 0 – 12 days after sprigging. Do not use in areas where endangered Hawaiian Goose or nene (*Branta sandvicensis*), Hawaiian duck (*Anas wyvilliana*), Hawaiian Stilt (*Himantopus mexicanus knudseni*), and Hawaiian Moornen (*Gallinula chloropus sandvicensis*) may feed.

WOODY ORNAMENTAL SHRUBS, VINES, TREES, AND CONIFER NURSERY APPLICATION

Apply RONSTAR® 1.0% Plus Turf Fertilizer Herbicide anytime during the year, prior to weed seed germination, for weed control. RONSTAR® 1.0% Plus Turf Fertilizer Herbicide can be applied to both newly transplanted and established ornamentals. Application can be made to actively growing or dormant ornamentals. Rainfall or overhead irrigation after application of RONSTAR® 1.0% Plus Turf Fertilizer Herbicide will improve weed control activity. RONSTAR® 1.0% Plus Turf Fertilizer Herbicide should not be mixed into the soil. Cultivating or disturbing the soil may reduce the weed control activity of RONSTAR® 1.0% Plus Turf Fertilizer Herbicide. **Do not** apply to wet foliage or under conditions in which granules will collect on leaves. **Do not apply in greenhouses** as plant injury may result from codistillation of RONSTAR® 1.0% Plus Turf Fertilizer Herbicide active ingredient onto leaf surfaces in condensation.

AMOUNT TO USE

Ground Application -- Apply RONSTAR® 1.0% Plus Turf Fertilizer Herbicide broadcast to ornamentals at 200 to 400 pounds of product per acre (or 4.5 to 9 pounds per 1,000 sq. ft.) depending on the weeds to be controlled, as listed below. Remove existing weed growth before application.

ANNUAL BROADLEAF WEEDS		ANNUA	AL GRASSES
Bittercress	(Cardamine sp)	Annual Bluegrass	(Poa annua)
Bristly Oxtongue	(Picris echioides)	Annual Sedge	(Cyperus compressus)
Carpetweed	(Mollugo verticillata)	*Barnyardgrass	(Echinochloa crus-galli)
Cheeseweed	(Malva parviflora)	Bristly Foxtail	(Setaria verticillata)
