 100.00%

CAUTION

KEEP OUT OF REACH OF CHILDREN

To control Silver Crabgrass (Goosegrass) apply at the rate of 250 pounds per acre or 5 $\frac{3}{4}$ pounds per 1000 square feet. Will also aid in the control of Ants, Fire Ants, Harvester Ants, Leaf Cutting Ants, Chiggers, European Chafer Larvae, Green June Beetle Larvae, Japanese Larvae, Tics, White Fringed Beetle Larvae, White Grubs and Wireworms. Best time of application: 10 days before germination of Crabgrass. Consult State Agricultural Experiment Station for best time of application in your area. Do not use on newly seeded lawns.

CAUTION: Harmful if swallowed. Contact with skin can cause toxic symptoms. In case of contact with skin, wash with soap and water. Avoid contamination of feed and foodstuffs. Keep children and pets off treated lawns until material has been washed into the soil by watering or rain and the treated areas are completely dried. Avoid inhalation of dust. This product is toxic to fish and wildlife. Keep out of lakes, ponds and streams. Birds feeding on treated areas may be killed.

NOTE: If no rain occurs during a 10-day period after application granules should be watered in to assure proper contact of Chlordane with soil.

NOTICE: Buyer assumes all risks of use, storage, or handling of this material not in strict accordance with directions given herewith.
