**Poisonous** if swallowed, inhaled or absorbed through the skin. **RAPIDLY ABSORBED THROUGH SKIN!** Do not contaminate food and feedstuffs. Do not get on skin, on clothing, or in eyes.

## **WARNING**

This stabilized Parathion may be considerably more toxic than the usual Parathion dust. Wear a mask or respirator of a type passed by the United States Department of Agriculture for Parathion protection. A half mask equipped with cartridges that will absorb organic vapors, supplemented with aerosol filters should be worn at all times while the operator is exposed to mists containing Parathion. When used constantly during the day, the filters must be changed several times. Keep all persons out of the operating area or vicinity where there may be danger of drift. Vacated areas should not be re-entered until the drifting insecticides and volatile residues have dissipated. Only persons experienced in handling hazardous insecticides should make application.

Wear clean natural rubber gloves, protective clothing and goggles while using this product. Do not get on skin, in eyes or on clothing. Do not breathe spray or mist. Do not take into mouth. If spilled on skin, wash immediately with soap and warm water. Wash hands, arms and face after handling and before eating or smoking. Clothing that has become contaminated should be removed immediately and thoroughly washed with soap and water.

**ANTIDOTE AND FIRST AID TREATMENT:** Persons who show any contraction of eye pupils, or have headaches, nausea or other signs of illness while or soon after handling Parathion must be taken to a doctor at once. The physician should be informed that repeated treatment with atropine, to the limit of the patient's tolerance, is the most effective antidote. **CALL A PHYSICIAN AT ONCE!**

**EYES:** Wash immediately with plenty of soap and water. Remove all contaminated clothing and wash before re-use.

**YES:** Flush immediately with large amounts of water.

**INTERNAL:** If swallowed immediately induce vomiting (finger down throat) or administer a tablespoonful of salt in a glass of warm water and repeat until vomit fluid is clear. Have victim lie down and keep quiet.

**This product is toxic to fish and wildlife. Keep out of lakes, ponds, and streams. Do not apply to any area not specified on the label.**

**Rinse equipment and container and dispose of wastes by burying in non-crop lands away from water supplies. Containers should be disposed by punching holes in them and burying with wastes.**

**NOTICE OF WARRANTY:** Woodbury Chemical Company warrants (its liability being limited to the purchase price of the product names on this label) that this product consists of the ingredients specified, but makes no other warranty or representation regarding the effect or result of this product's use, whether or not the product is used in accordance with directions and shall have no responsibility whatsoever for injury to persons, animals or damage to property resulting from the handling, storage or use of this product. The user or buyer shall be deemed to have accepted these conditions, which may be varied only by agreement in writing signed by a duly authorized representative of the above named company.
