DIRECTIONS FOR USE

FOR CELERY AND PEPPERS: Cutworm: Use 30 to 40 pounds per acre. Mole Crickets: Use 20 pounds per acre. Apply along rows and on ground around plants. Use only as a preplant treatment or at time of planting or transplanting. Do not apply to foliage or against plants. Do not make application on celery after bunch begins to form or on peppers after peppers begin to form.

FOR CITRUS GROVE APPLICATION: (Orange, Grapefruit, and Lemon Trees): Ants and grasshoppers: Apply to trunks of trees and ground trees at the rate of 40 lbs. per acre. Make no application while fruit is on tree. Do not apply to fruit or foliage. Termites: Apply 2 ounces (1/2 cupful) per tree to area to be banked and an additional 2 ounces to mound when bank is one half complete.

CAUTION: This product is poisonous to fish, birds and other wildlife. Keep out of lakes, ponds and streams. Do not apply in any manner not specified on the label. Do not apply when weather conditions favor drift of dust from crop areas treated. Do not apply where runoff is likely to occur. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not reuse container. Destroy by burying in a safe place away from water supplies.

NON-WARRANTY: Buyer assumes all risk of use, storage or handling of this product not in strict accordance with directions given herewith.
