2,4-Dichlorophenoxyacetic acid (2,4-D) 75% 133.33	133.33
2,4-Dichlorophenoxyacetic acid (2,4-D) 50% 200.00	200.00
2,4-Dichlorophenoxyacetic acid (2,4-D) 25% 400.00	400.00
INERT INGREDIENTS	14.29

Acid equivalents:

2,4-Dichlorophenoxyacetic acid (2,4-D) 100% 100.00 gal.

2,4-Dichlorophenoxyacetic acid (2,4-D) 75% 133.33 gal.

2,4-Dichlorophenoxyacetic acid (2,4-D) 50% 200.00 gal.

2,4-Dichlorophenoxyacetic acid (2,4-D) 25% 400.00 gal.

CAUTION

KEEP OUT OF REACH OF CHILDREN

GENERAL INFORMATION

Use Hi-Power 2,4-D as a treatment to control patches of annual and deep rooted perennials such as Canada thistle, field bindweed, morning glory, soybean, etc. It is also effective on milkweed, black, red, yellow, and white clover, alfalfa, and other legumes. It is also effective on American and European spruce, Norway spruce, and other evergreens. It is also effective on annual, biennial, and perennial weeds in non-cropland areas such as roadsides, ditches, and water banks of streams. Hi-Power 2,4-D is a white, crystalline, persistent, and water soluble. To prevent damage to desirable plants, follow all directions and precautions.

Directions

Mix with water and spray on weeds. The amount of water to use will vary with the type of weeds and the weather. For general use, the rate of application should be 100 gallons per acre. For control of weeds in non-cropland areas, the rate of application should be 200 gallons per acre. The amount of water to use will vary with the type of weeds and the weather. For control of weeds in non-cropland areas, the rate of application should be 200 gallons per acre. This will usually require 10 gallons.

SOME OF THE WEEDS TO BE CONTROLLED	HI-POWER 12 TO USE IN 100% ALL SPRAY	REMARKS
Dock, Lambspur, Pigweed, Sowthistle, Sunflower (wild), Thistle (wild), Thistle (red), Thistle (black), Thistle (white), Thistle (yellow), Thistle (purple), Thistle (brown), Thistle (pink), Thistle (orange), Thistle (red), Thistle (black), Thistle (white), Thistle (yellow), Thistle (purple), Thistle (brown), Thistle (pink), Thistle (orange)		
bindweed (white), Horsenettle (white), Knapweed (Russian), Milkweed, Ragweed (brown), Spurge (leafy), Teatfex (yellow)		Use in all states greater than Arizona, Arkansas, Kansas, Missouri, New Mexico, Oklahoma and Texas.

Use on Round Patches of Weeds: Apply the required spray mixture at the amount indicated in the following table.

Feet across Round Patch to be treated (weed area plus 10 foot border)	Gallons of spray mixture to apply
25	1.0
50	4.0
75	9.0
100	16.0
235 or (1 acre)	110.0

Note: For small amounts of spray use HI-POWER 12 at rate of 1-1/4 to 2-1/2 fluid ounces in each gallon of water.

HI-POWER 12 Herbicide is effective against a wide range of weeds. Consult your State Agricultural Experiment Station or Extension Service weed specialists for local recommendations. Be sure that the use of this product conforms to all applicable regulations.

BE SURE YOU FOLLOW ALL DIRECTIONS, EVEN IN THE CASE OF WEEDS AND HERBICIDES THAT ARE KNOWN TO BE:

1. Persistent: HI-POWER 12 is persistent. It will carry over in the soil. It will not be moved out of the treated area by rain or water. It will move with water in irrigation or drainage. It may drift and damage crops.

Do Not Allow Spray Drift: HI-POWER 12 herbicides are highly potent. Many reports have been received of damage to crops during either growing or dormant periods. HI-POWER 12 herbicides are highly potent and should be applied with care. Do not spray near trees, shrubs, and other valuable plants. Do not spray near water. Do not spray near crops. Do not spray near people. Do not spray near animals. Do not spray near birds. Do not spray near bees. Do not spray near butterflies. Do not spray near moths. Do not spray near flies. Do not spray near mosquitoes. Do not spray near ticks. Do not spray near mites. Do not spray near nematodes. Do not spray near fungi. Do not spray near bacteria. Do not spray near viruses. Do not spray near protozoa. Do not spray near algae. Do not spray near plants. Do not spray near animals. Do not spray near people. Do not spray near birds. Do not spray near bees. Do not spray near butterflies. Do not spray near moths. Do not spray near flies. Do not spray near mosquitoes. Do not spray near ticks. Do not spray near mites. Do not spray near nematodes. Do not spray near fungi. Do not spray near bacteria. Do not spray near viruses. Do not spray near protozoa. Do not spray near algae.
