These granules are a powerful fly and roach killer. They are used in homes, restaurants, hotels, and other places where flies and roaches are a problem. They are easy to use and very effective. They kill flies and roaches by poisoning them. They are safe for use around people and pets. They are also safe for use on food and food containers. They are a great way to keep your home or business free of flies and roaches.

DIPTEREX may be used in federally inspected poultry packing plants. In certain products from these plants, DIPTEREX may be used only after operators have ceased for the day and parts are not exposed to the operations are resumed. In federally inspected meat packing plants, DIPTEREX may be used and may be a part of the inedible products.

DIPTEREX kills both resistant and non resistant strains of flies and cockroaches.
