FOR PROTECTION OF LOGS IN THE WOODS AGAINST AMBROSIA BEETLES AND WOOD BORERS BY SPRAYING

For protection of logs in the woods against Ambrosia beetles and wood borers, spray the logs with Koppers Timbertreat 625 Insecticide. The insecticide is applied to the bark of the logs and penetrates to the cambium, where it kills the insects and their eggs.

FOR PROTECTION OF LUMBER AGAINST AMBROSIA BEETLES BY DIPPING

For protection of lumber against Ambrosia beetles, dip the lumber in a solution of Koppers Timbertreat 625 Insecticide. The insecticide is applied to all surfaces of the lumber and penetrates to the wood, where it kills the insects and their eggs.

For protection of lumber against Ambrosia beetles, dip the lumber in a solution of Koppers Timbertreat 625 Insecticide. The insecticide is applied to all surfaces of the lumber and penetrates to the wood, where it kills the insects and their eggs.

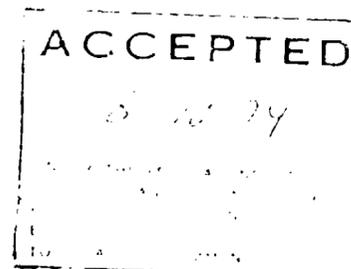

FOR PROTECTION OF LUMBER AGAINST AMBROSIA BEETLES IN CONJUNCTION WITH ANTI-STAIN DIP TREATMENT

For protection of lumber against Ambrosia beetles in conjunction with anti-stain dip treatment, dip the lumber in a solution of Koppers Timbertreat 625 Insecticide and anti-stain dip. The insecticide is applied to all surfaces of the lumber and penetrates to the wood, where it kills the insects and their eggs.

For protection of lumber against Ambrosia beetles in conjunction with anti-stain dip treatment, dip the lumber in a solution of Koppers Timbertreat 625 Insecticide and anti-stain dip. The insecticide is applied to all surfaces of the lumber and penetrates to the wood, where it kills the insects and their eggs.

TIMBERTREAT 625 INSECTICIDE

For dip and spray application to green logs and lumber for control of Ambrosia Beetles and Wood Borers during storage.
